Element	**Section D – Risks**	
	Risks specific to Deutsche Hypothekenbank (Actien-Gesellschaft)	
D.2	**Key information on the key risks that are specific to the Issuer**	***Summary of the risks related to Macroeconomic Developments*** The German economy had a good start into 2014. The performance of the economy in the rest of the Eurozone, on the contrary, was characterised solely by a moderate recovery process in the first quarter. Due to an increase in geopolitical tension in Ukraine, the European economy was unable to maintain the growth in the second quarter. Further negative developments in the crises and new shocks related to the sovereign debt crisis cannot be excluded completely. Against this backdrop, the business conditions of Deutsche Hypothekenbank might be negatively affected. Unexpected developments in external or internal factors have a major impact on the Bank's results. Factors like financial markets development, funding options, liquidity management, need for write-downs, commercial real estate markets or regulatory requirements development play a

		significant role in the Bank's success. ***Summary of the risks associated with the Business of Deutsche Hypothekenbank*** *The risks described below result mainly from the business activities of Deutsche Hypothekenbank as a financial institution.* In general, there are certain risks associated with the activities of Deutsche Hypothekenbank. The risks, to which Deutsche Hypothekenbank is exposed, may, should they become reality, give rise to a situation in which the Bank is unable to meet its payment obligations, or cannot do so in full. It is possible to distinguish between risks relating to banking, operational risks and general business risks. There are three types of risks relating to banking risks: credit risk, market price risk and liquidity risk. <u>Credit risk</u>: Credit risk is a component of counterparty risk and describes the risk that a loss occurs due to default or deterioration in creditworthiness of a debtor. In the case of Deutsche Hypothekenbank, credit risk therefore results primarily from the commercial lending business. The counterparty default risk remains the largest risk position of Deutsche Hypothekenbank. As of 30 June 2014 around 63% of the entire risk potential of Deutsche Hypothekenbank relates to the counterparty default risk. It cannot be ruled out that undetected, unforeseen and unavoidable risks or risks that were not identified in the past will arise and lead to loan losses which could have a negative effect on the net assets, financial and income position of Deutsche Hypothekenbank and/or its subsidiaries and could limit Deutsche Hypothekenbank's ability to make payments under the Notes. <u>Market price risk</u>: Deutsche Hypothekenbank is exposed to market price risks. Market price risk comprises the potential losses which may result from changes in market parameters. Deutsche Hypothekenbank divides market price risk substantially into interest rate risk, credit spread risk, and foreign exchange risk/currency risk. Deutsche Hypothekenbank and its subsidiaries conduct substantial amounts of their business in currencies other than the Euro, most importantly in U.S. dollars and Great Britain Pound. Foreign exchange effects can significantly affect the Issuer's income as well as the risk-weighted assets. To the extent the Issuer continues to recognize operating income in currencies other than Euro, it will encounter foreign exchange risk, which could have a material adverse effect on its business, results of operations or financial condition. For currency risks Deutsche Hypothekenbank pursued the general strategy of hedging individual transactions. The foreign exchange exposure of Deutsche Hypothekenbank's lending activities is hedged on a back-to-back basis with the aim of eliminating all currency risk. The foreign exchange

		exposure is separately limited and monitored on a daily basis. If any of the Issuer's instruments and strategies to hedge market price risk is not effective, the Issuer may not be able to effectively mitigate its risk exposures. In the event that market developments are not anticipated or forecast by Deutsche Hypothekenbank and its subsidiaries or if forecasts regarding market developments prove to be incorrect, this could have a negative effect on the net assets, financial position and results of operations of Deutsche Hypothekenbank and/or its subsidiaries and in extreme cases limit the ability of Deutsche Hypothekenbank to make payments under the Notes. <u>Liquidity risk</u>: Deutsche Hypothekenbank and its subsidiaries are subject to liquidity risk. Liquidity risk describes the risk that may arise from disturbances in the liquidity of individual parts of the capital market, unexpected events in the lending or deposit business or the deterioration of Deutsche Hypothekenbank's own refinancing conditions. Thereby it can be differentiated between classical liquidity risk, funding risk and market liquidity risk. As a result of liquidity risk, Deutsche Hypothekenbank may be unable to meet its obligations as they fall due as a result of a sudden and protracted increase in cash outflows. Such outflows would deplete available cash resources *e.g.* for client lending. Should it become impossible to raise liquidity in the capital markets, the net assets, financial position and results of operations of Deutsche Hypothekenbank and/or its subsidiaries could be impaired, and Deutsche Hypothekenbank's ability to make payments under the Notes could be limited. In extreme circumstances a lack of liquidity could result in reductions in the balance sheet and sales of assets, or potentially of an inability to fulfil lending commitments. Asset sales, balance sheet reductions and the increasing costs of funding will affect the result. <u>Operational risk</u>: Operational risk describes the risk of direct or indirect losses incurred due to the unsuitability or failure of human beings, technical systems or internal processes or as a result of external events. It cannot be ruled out that the precautions taken by Deutsche Hypothekenbank and its subsidiaries against operational risk may be insufficient in individual cases. The realisation of such a risk could have a negative effect on the net assets, financial position and results of operations of Deutsche Hypothekenbank and/or its subsidiaries which could limit Deutsche Hypothekenbank's ability to make payments under the Notes. <u>General business risk</u>: General business risk is understood to refer to the type of risk that arises as a result of changes in the economic climate. This includes market conditions,

		customer behaviour and technical advances. Changes in market conditions can cause the demand for products offered by Deutsche Hypothekenbank to disappear or be severely reduced. Customer behaviour can change in such a way that they increasingly take their business to competitors. One cause for this could be that the Bank's reputation could have been compromised (reputation risk). Technical advances can also give rise to risks that mean that certain of the Bank's products are no longer required, as their form or packaging mean they no longer fulfil the current needs of the Bank's customers. Risks to operating income can arise if the anticipated volumes of new business cannot be generated on the markets subject to the anticipated margins. There is also the risk that the portfolio volume will not perform to the level anticipated in the Bank's plans and expectations. It cannot be completely ruled out that there could be a deterioration of the European sovereign debt crisis, in particular the continuing uncertainty regarding the development of the government finances and the economic climate of a large number of industrial countries, particularly with regard to Portugal, Italy, Ireland, Greece and Spain. This could lead to an indirect effect on the trend in the risk result. The banking regulatory reform process, which has not yet been concluded, represents a potential source of risk, because the results of this reform process could affect the Banks' equity requirements, lending practice and ultimately its profitability. <u>Financial transaction tax</u>: The introduction of a financial transaction tax may have an adverse effect on the Issuer's business, operating results and financial status (risks relating to the potential introducing of a financial transaction tax). The risks referred to above may have a direct or indirect negative effect upon the results of operations of the Bank and could also reduce its ability to fulfil its payment obligations under the Notes. ***Other matters*** Since its launch in 2013, significant progress has been made in the preparation for, and the implementation of the Single Supervisory Mechanism ("**SSM**") pursuant to which the European Central Bank (ECB), supported by the participating national competent authorities (NCAs, such as BaFin), will be responsible for conducting banking supervision in the euro area. The SSM is legally based on EU Regulation No. 1022/2013 of the European Parliament and Council (the "**SSM Regulation**"). Amongst others, Deutsche Hypothekenbank as a subsidiary of the NORD/LB Group will indirectly become subject to the ECB's supervision under the SSM. As preparatory steps for the ECB assuming its new supervisory tasks under the SSM in November 2014, supervisory risk assessments, asset quality reviews, balance sheet assessments and stress test(s) in

		relation to specific banks of the Eurozone will be conducted, including in relation to NORD/LB Group. One part of the comprehensive assessment is the asset quality review ("**AQR**") which is currently ongoing and consists of three phases (i) the portfolio selection, in order to identify the most risky portfolios in bank's balance sheet and thereby the focus of the exercise (ii) the actual review of the assets, collateral and provisioning in the selected portfolios and level-3 fair-value assets, which will be preceded by the collection of data and data integrity validation and (iii) the quality assurance and reporting of results expected for October/November 2014. <u>Risks relating to regulatory changes</u> The existing banking and financial services laws may change at any time in such a way that the business of Deutsche Hypothekenbank may be impaired. As a result, the way management is conducted, the products or services offered and the value of the assets may be materially affected Furthermore, regulatory authorities have the right to initiate administrative or judicial proceedings against Banks, which may substantially affect the business, financial results and the financial position of Deutsche Hypothekenbank. <u>Stress tests may adversely affect the Issuer's business</u> Through the affiliation to the NORD/LB Group, Deutsche Hypothekenbank is indirectly subject to the next EU-wide stress testing exercise initiated by the European Banking Authority ("**EBA**") in 2014. NORD/LB and its Subsidiaries may, as a consequence of stress tests, be subject to measures initiated by the German financial regulatory authorities *Bundesanstalt für Finanzdienstleistungsaufsicht* ("**BaFin**") and Deutsche Bundesbank (the "**German Central Bank**"), the EBA and/or the European Central Bank ("**ECB**"). The results from normal operations of Deutsche Hypothekenbank may be adversely affected if negative results were to be received on such stress tests. Furthermore, the publication of the results of the stress test (and its findings), their evaluation by financial market participants and the market's general impression that such a stress test is not designed in a robust enough manner could have a negative impact on the reputation or the ability to fund oneself as well as increase the costs of funding or require other remedial actions. Further, the risks arising from the aforementioned aspects could have a material adverse effect on the reputation, business, results from normal operations or financial condition of Deutsche Hypothekenbank. <u>Risks arising from the so-called Single Supervisory Mechanism (SSM)</u> Procedures within the Single Supervisory Mechanism (SSM) and the Single Resolution Mechanism (SRM) and/or other regulatory initiatives could change interpretation of regulation requirements applicable and lead to additional regulatory requirements, increased cost of compliance and reporting for

		Deutsche Hypothekenbank. Furthermore, such developments may have other material adverse effects on the business, results from normal operations or financial condition. <u>Risks referring to the audit of asset quality (Asset Quality Review) as part of the Comprehensive Assessment</u> The publication of the results of the comprehensive assessment or its components (including findings arising from the AQR and/or the stress test component), their evaluation by financial market participants and the market's general impression that a stress test is not strict enough could have a negative impact on the reputation of Deutsche Hypothekenbank or its ability to fund itself as well as increase its costs of funding. Further, the risks arising from the aforementioned aspects could have a material adverse effect on the Issuer's reputation, business, results from normal operations or financial condition. <u>Increase in regulatory activity</u> The global financial crisis has led to an increase in regulatory activities at national and international level, by creating and adopting new rules applicable to the financial sector and enforcing existing rules in a stricter degree. This may have a significant impact on compliance costs and may significantly affect the capabilities of the financial institutions. <u>Governmental and central bank action in response to the financial crisis</u> In response to the financial markets crisis, there has been significant intervention by governments and central banks in the financial services sector, inter alia in taking direct shareholdings in individual financial institutions and contributions of other forms of capital, taking over guarantees of debt and purchasing distressed assets from financial institutions. The implementation of any such measures with respect to other companies could affect the perception of the overall prospects for the financial services sector or for certain financial instruments. In such case the price for the financial instruments of Deutsche Hypothekenbank could drop and the cost of funding and capital could rise, which could have a material adverse effect.
	Risks specific to the Notes	
D.3	**Key information on the key risks that are specific to the securities**	**Notes may not be a suitable Investment** Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. **Liquidity risk** There can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The

		possibility to sell the Notes might additionally be restricted by country specific reasons. **Market price risk** The Holder of Notes is exposed to the risk of an unfavourable development of market prices of its Notes, which materialises if the Holder sells the Notes prior to the final maturity of such Notes. **Currency risk** A Holder of Notes denominated in a foreign currency is exposed to the risk, that changes in currency exchange rates may affect the yield of such Notes. **[Risk of early redemption** A Holder of the Notes is exposed to the risk that due to early redemption his investment will have a lower than expected yield. Also, the Holder may only be able to reinvest on less favourable conditions as compared to the original investment.**]** **[Fixed Rate Notes** A Holder of Fixed Rate Notes is exposed to the risk that the price of such Note falls as a result of changes in the market interest rate.**]** **[Floating Rate Notes** A Holder of Floating Rate Notes is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance.**]** **[Subordinated Notes** In the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer, such obligations will be subordinated to the claims of all third party creditors in respect of unsubordinated obligations of the Issuer so that in any such event no amounts will be payable under such obligations until the claims of all third party creditors in respect of unsubordinated obligations of the Issuer will have been satisfied in full.**]** **[Resolutions of Holders** Since the Terms and Conditions of the Notes provide for resolutions of Holders, either to be passed in a meeting of Holders or by vote taken without a meeting, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As resolutions properly adopted are binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.**]** **[Holders' Representative** Since the Terms and Conditions of the Notes provide for the appointment of a Holders' Representative, it is possible that

		a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' Representative who is then responsible to claim and enforce the rights of all Holders.**]** **Bail-In** The European Parliament and Council have adopted a Directive of the European Parliament and the Council "establishing a framework for the recovery and resolution of credit institutions and investment firms". Once implemented, the new legislation will, among other resolution action and subject to certain conditions and exemptions, allow the resolution authorities to write-down, or convert into equity instruments, liabilities of the institutions including under the Notes ("bail-in") in which case the Holder of such Notes might loose a substantial part of his investment. **U.S. Foreign Account Tax Compliance Withholding** Under certain circumstances, the Issuer, the Clearing System, any Paying Agent or custodian or any other financial intermediary may be required to withhold 30% withholding tax in respect of Notes issued after 1 July 2014 or materially modified on or after the later of 1 July 2014 and the date that is six months after the date of publication of final U.S. Treasury regulations defining the term "*foreign passthru payment*" pursuant to certain provisions of the U.S. Internal Revenue Code (commonly referred to as "**FATCA**") and associated therewith, pursuant to an intergovernmental agreement dated 31 May 2013 between the Federal Republic of Germany and the United States of America. Pursuant to the terms and conditions of the Notes, Holders will not receive any gross-up payments in compensation of FATCA withholdings. Holders should consult their tax advisers regarding the application of FATCA to an investment in the Notes and their ability to obtain a refund of any amounts withheld under FATCA.

Punkt	**Abschnitt D – Risiken**	
	Risiken in Bezug auf die Deutsche Hypothekenbank (Actien-Gesellschaft)	
D.2	**Zentrale Angaben zu den zentralen Risiken, die dem Emittenten eigen sind**	***Zusammenfassung der mit gesamtwirtschaftlichen Entwicklungen verbundenen Risiken*** Die deutsche Volkswirtschaft hatte einen guten Start ins Jahr 2014. Der Konjunkturverlauf im Rest der Eurozone war im ersten Quartal hingegen lediglich von einem moderaten Erholungsprozess gekennzeichnet. Auch infolge einer Verschärfung der geopolitischen Spannungen in der Ukraine konnte die europäische Wirtschaft das Wachstum im zweiten Quartal nicht halten. Weitere negative Entwicklungen der Krisen und neue Schocks im Rahmen der Schuldenkrise können nicht vollständig ausgeschlossen werden. Vor diesem Hintergrund könnten die geschäftlichen Rahmenbedingungen der Deutschen Hypothekenbank negativ beeinflusst werden. Unerwartete Entwicklungen externer und interner Faktoren haben einen großen Einfluss auf die Ergebnisse der Bank. Faktoren wie die Entwicklung der Finanzmärkte, die Refinanzierungsmöglichkeiten, das Liquiditätsmanagement, die Abschreibungsnotwendigkeiten, die gewerblichen Immobilienmärkte oder aufsichtsrechtliche Entwicklungen spielen eine erhebliche Rolle für den Erfolg der Bank. ***Zusammenfassung der mit dem Geschäft der Deutsche Hypothekenbank verbundenen Risiken*** *Die im Folgenden dargestellten Risiken resultieren überwiegend aus der Geschäftstätigkeit der Deutsche Hypothekenbank (Actien-Gesellschaft) als Kreditinstitut.* Im Allgemeinen sind bestimmte Risiken mit den Aktivitäten der Deutsche Hypothekenbank verbunden. Die Risiken, denen die Deutsche Hypothekenbank ausgesetzt ist, können, sollten sie sich realisieren, zu einer Situation führen, in der die Bank nicht in der Lage ist, ihren Zahlungsverbindlichkeiten ganz oder teilweise nachzukommen. Man kann zwischen bankbezogenen Risiken, operationellen Risiken und allgemeinen Unternehmensrisiken unterscheiden. Es existieren drei bankbezogene Risiken: Kreditrisiken, Marktpreisrisiken und Liquiditätsrisiken. <u>Kreditrisiko</u>: Das Kreditrisiko ist Bestandteil des Adressenrisikos und bezeichnet die Gefahr, dass auf Grund des Ausfalls oder der Bonitätsverschlechterung eines Schuldners ein Verlust eintritt. Kreditrisiko entsteht hauptsächlich in dem gewerblichen Kreditgeschäft. Das Adressenausfallrisiko ist die größte Risikoposition der

		Deutsche Hypothekenbank. Das gesamte Risikopotenzial der Deutsche Hypothekenbank wird zum 30. Juni 2014 zu rund 63% durch das Adressen- bzw. Adressenausfallrisiko ausgelastet. Es kann nicht ausgeschlossen werden, dass unentdeckte, unvorhersehbare und unvermeidbare Risiken oder solche Risiken entstehen, die in der Vergangenheit nicht identifiziert worden sind und die zu Verlusten im Darlehensbereich führen, was die Vermögens-, Finanz- und Ertragslage der Deutsche Hypothekenbank und/oder ihrer Tochtergesellschaften negativ beeinflussen und die Zahlungsfähigkeit der Deutsche Hypothekenbank im Zusammenhang mit von ihr unter dem Programm begebenen Wertpapieren begrenzen kann. <u>Marktpreisrisiko</u>: Die Deutsche Hypothekenbank ist Marktpreisrisiken ausgesetzt. Als Marktpreisrisiko werden die potenziellen Verluste bezeichnet, die sich aus Veränderungen von Marktparametern ergeben können. Die Deutsche Hypothekenbank unterscheidet das Marktpreisrisiko in Zinsänderungsrisiko, Credit-Spread-Risiko und Währungsrisiko/Wechselkursrisiko. Die Deutsche Hypo und ihre Tochtergesellschaften stellen großvolumige Fremdwährungsgeschäfte, vor allem in U.S. Dollar und britischen Pfund dar. Wechselkurseffekte können erheblichen Einfluss auf das Bankergebnis und die risikogewichteten Aktiva haben. Soweit die Emittentin weiterhin fremdwährungsbasierte Einnahmen hat, wird sie Wechselkursrisiken ausgesetzt sein, die erheblichen Einfluss auf das Geschäft, das operationelle Ergebnis und die finanzielle Ausstattung haben können. Die Strategie der Bank sieht grundsätzlich Absicherungsgeschäfte im Währungsbereich bei jeder Einzeltransaktion vor. Die aus dem Darlehensgeschäft der Deutsche Hypothekenbank resultierenden Währungspositionen werden durch *back-to-back* Transaktionen abgesichert mit dem Ziel, die Währungsrisiken zu eliminieren. Währungsrisiken werden täglich überprüft. Falls von der Bank eingesetzte Instrumente oder Strategien zur Vermeidung von Marktpreisrisiken nicht wirksam sind, kann die Emittentin möglicherweise die Risikoexposures nicht effektiv abfangen. Falls Marktentwicklungen von der Deutsche Hypothekenbank und ihren Töchtern nicht erwartet oder vorhergesehen werden oder falls Prognosen zur Marktentwicklung sich als unzutreffend erweisen, kann dieses die Vermögens-, Finanz- und Ertragslage der Deutsche Hypothekenbank und/oder ihrer Tochtergesellschaften negativ beeinflussen und die Zahlungsfähigkeit der Deutsche Hypothekenbank im Zusammenhang mit von ihr unter dem Programm begebenen Wertpapieren begrenzen. <u>Liquiditätsrisiko</u>: Die Deutsche Hypothekenbank und ihre Tochtergesellschaften sind Liquiditätsrisiken ausgesetzt. Das Liquiditätsrisiko beschreibt das Risiko, das aus Störungen in der Liquidität einzelner Kapitalmarktsegmente, unerwarteten Ereignissen im Darlehens- oder Einlagengeschäft oder der

		Verschlechterung der bankeigenen Refinanzierungsbedingungen resultiert. Dabei kann zwischen klassischen Liquiditätsrisiken, Refinanzierungsrisiken und marktweiten Liquiditätsrisiken unterschieden werden. Aufgrund des Liquiditätsrisikos kann die Deutsche Hypothekenbank außer Stande sein, ihren Verpflichtungen nachzukommen, sollten diese als Ergebnis eines plötzlichen und längerfristigen Anstiegs von Geldmittelabflüssen fällig gestellt werden. Ein solcher Abfluss würde zur Verfügung stehende Zahlungsressourcen – z.B. für Darlehensausreichungen - verringern. Sollte die Liquiditätsaufnahme in den Kapitalmärkten unmöglich werden, kann dieses die Vermögens-, Finanz- und Ertragslage der Deutsche Hypothekenbank und/oder ihrer Tochtergesellschaften negativ beeinflussen und die Zahlungsfähigkeit der Deutsche Hypothekenbank im Zusammenhang mit von ihr unter dem Programm begebenen Wertpapieren begrenzen. Unter extremen Umständen könnte ein Liquiditätsmangel in der Verkürzung der Bilanz, einem Verkauf von Aktiva oder in die Unfähigkeit, den Verpflichtungen zu Darlehensausreichungen nachzukommen, münden. Der Verkauf von Aktiva, die Verkürzung der Bilanz und steigende Refinanzierungskosten werden sich auf das Ergebnis auswirken. <u>Operationelles Risiko</u>: Operationelles Risiko beschreibt das Risiko eines direkten oder indirekten Verlustes auf Grund menschlichen Fehlverhaltens, technischen Versagens, der Ungeeignetheit interner Prozesse oder als Auswirkung externer Ereignisse. Es kann nicht ausgeschlossen werden, dass die Vorkehrungen der Deutsche Hypothekenbank und ihrer Tochtergesellschaften zur Vermeidung operationeller Risiken im Einzelfall ungenügend sind. Die Verwirklichung eines derartigen Risikos kann die Vermögens-, Finanz- und Ertragslage der Deutsche Hypothekenbank und/oder ihrer Tochtergesellschaften negativ beeinflussen, was wiederum die Zahlungsfähigkeit der Deutsche Hypothekenbank im Zusammenhang mit von ihr unter dem Programm begebenen Wertpapieren begrenzen kann. <u>Allgemeines Unternehmensrisiko</u>: Unter dem Allgemeinen Unternehmensrisiko wird das Risiko einer Veränderung der ökonomischen Rahmenbedingungen verstanden. Das umfasst die Marktverhältnisse, das Kundenverhalten und technischen Wandel. Veränderte Marktverhältnisse können zu einer sinkenden oder zum Erliegen kommenden Nachfrage nach Produkten der Deutsche Hypothekenbank führen. Verändertes Kundenverhalten kann dazu führen, dass Kunden Geschäfte mit Wettbewerbern der Bank abwickeln. Ein Grund hierfür könnte in einem Reputationsschaden der Bank begründet liegen (Reputationsrisiko). Technischer Wandel kann dazu führen, dass bestimmte Produkte der Bank nicht länger benötigt werden, da ihre Form oder Aufmachung den Bedürfnissen der Kunden der Bank nicht

		mehr gerecht wird. Betriebsergebnisbezogene Risiken können entstehen, falls das erwartete Neugeschäftsvolumen zu den geplanten Margen auf den Märkten nicht generiert werden kann. Weiterhin besteht das Risiko, dass das Bestandsgeschäft sich nicht den Plänen und den Erwartungen der Bank entsprechend entwickelt. Eine Verschlechterung der europäischen Staatsschuldenkrise kann nicht vollständig ausgeschlossen werden, besonders die anhaltende Unsicherheit hinsichtlich der Entwicklung der Staatsfinanzen einer großen Anzahl von Industrieländern, speziell von Portugal, Italien, Irland, Griechenland und Spanien. Dies könnte zu einem indirekten Einfluss auf die Entwicklungstendenz des Risikoergebnisses führen. Der noch nicht abgeschlossene Reformprozess zur Bankenregulierung stellt eine mögliche Risikoquelle dar, weil das Resultat dieses Reformprozesses die Eigenkapitalanforderungen der Bank, ihr Darlehensgeschäft und letztlich ihre Ertragskraft beeinflussen kann. <u>Finanztransaktionssteuer:</u> Es besteht das Risiko, dass sich die Einführung einer Finanztransaktionssteuer nachteilig auf die Vermögens-, Finanz- und Ertragslage der Emittentin auswirkt (Risiko im Falle der Einführung einer Finanztransaktionssteuer). Die o. g. Risiken können einen direkten oder indirekten negativen Einfluss auf die Einkommenssituation der Bank haben und auch die Möglichkeit, ihren Zahlungsverpflichtungen im Zusammenhang mit von ihr unter dem Programm begebenen Wertpapieren nachzukommen, beeinträchtigen. ***Weiteres*** Seit seiner Einführung im Jahr 2013 wurden bei der Vorbereitung und Umsetzung des einheitlichen Aufsichtsmechanismus (*Single Supervisory Mechanism* – "**SSM**") erhebliche Fortschritte erzielt, in dessen Rahmen die EZB mit Unterstützung der teilnehmenden zuständigen nationalen Behörden (National Competent Authorities (NCAs) wie der BaFin) für die Durchführung der Bankenaufsicht im Euroraum verantwortlich sein wird. Rechtlich basiert der einheitliche Aufsichtsmechanismus auf der EU Veordnung Nr. 1022/2013 des Europäischen Parlaments und Rates (die "**SSM-Verordnung**"). Unter anderem wird die Deutsche Hypothekenbank als Tochtergesellschaft der NORD/LB im Rahmen des einheitlichen Aufsichtsmechanismus indirekt der Aufsicht der EZB unterliegen. Als vorbereitende Maßnahmen für die Übernahme neuer Aufsichtsfunktionen durch die EZB im November 2014 aufgrund des einheitlichen Aufsichtsmechanismus werden in Bezug auf bestimmte Banken in der Eurozone, einschließlich des NORD/LB Konzerns, aufsichtsrechtliche Risikoprüfungen, Prüfungen der Forderungsqualität, Bilanzprüfungen und Stresstests durchgeführt. Ein Teil dieser umfassenden Überprüfung ist die derzeit laufende Prüfung der Forderungsqualität ("**AQR**"),

		die aus drei Phasen besteht: (i) die Portfolioauswahl zwecks Bestimmung der risikoreichsten Portfolien in der Bilanz einer Bank, die damit den Schwerpunkt der Maßnahme bildet, (ii) die tatsächliche Überprüfung der Forderungen, Sicherheiten und Wertberichtigungen in den ausgewählten Portfolios sowie der Level-3 Fair Value Assets, der die Zusammenstellung der Daten und Bewertung der Datenintegrität vorausgeht, und (iii) die voraussichtlich im Oktober/November 2014 stattfindende Qualitätssicherung und Berichterstattung zu den Ergebnissen. <u>Risiken im Zusammenhang mit regulatorischen Änderungen</u> Das Bank- und Finanzdienstleistungsrecht kann sich jederzeit so ändern, dass das Geschäft der Deutschen Hypothekenbank beeinträchtigt wird. Dadurch können die Art und Weise der Geschäftsführung, die angebotenen Produkte und Dienstleistungen sowie der Wert des Vermögens wesentlich beeinflusst werden. Zudem haben die Regulierungsbehörden die Befugnis, Verwaltungs- oder Gerichtsverfahren gegen Banken einzuleiten, die die Geschäfte, die Geschäftsergebnisse sowie die Finanzlage der Deutschen Hypothekenbank wesentlich beeinträchtigen könnten. <u>Stresstests können das Geschäft beeinträchtigen</u> Durch die Zugehörigkeit zum NORD/LB Konzern ist die Deutsche Hypothekenbank indirekt Gegenstand der EU-weiten Stresstest-Initiative der Europäischen Bankenaufsichtsbehörde ("**EBA**") im Jahr 2014. Die NORD/LB und ihre Tochtergesellschaften unterliegen Stresstest-Maßnahmen, die von den deutschen Finanzaufsichtsbehörden, der Bundesanstalt für Finanzdienstleistungsaufsicht ("**BaFin**") und der Deutschen Bundesbank, der EBA und/oder der Europäischen Zentralbank ("**EZB**") eingeleitet wurden. Die Ergebnisse der normalen Geschäftstätigkeit der Deutschen Hypothekenbank können negativ beeinflusst werden, wenn diese Stresstests negativ ausfielen. Des Weiteren könnte die Veröffentlichung der Ergebnisse der Stresstests, deren Bewertung durch die Finanzmarktteilnehmer sowie der Gesamteindruck des Marktes, dass ein Stresstest nicht robust genug ausgelegt sei, einen negativen Einfluss auf die Reputation oder die Fähigkeit, sich zu refinanzieren, haben sowie die Refinanzierungskosten erhöhen, oder es könnten andere Sanierungsmaßnahmen erforderlich werden. Zudem könnten die aus den vorgenannten Aspekten resultierenden Risiken einen wesentlichen negativen Einfluss auf die Reputation, das Geschäft, die Ergebnisse der normalen Geschäftstätigkeit oder die Finanzlage der Deutschen Hypothekenbank haben. <u>Risiken im Zusammenhang mit dem Einheitlichen Bankenaufsichtsmechanismus (Single Supervisory Mechanism (SSM))</u> Verfahren im Rahmen des Einheitlichen Bankenaufsichtsmechanismus und des Einheitlichen Bankenabwicklungsmechanismus (Single Resolution Mechanism (SRM)) bzw. andere regulatorische Initiativen

		könnten die Auslegung von regulatorischen Anforderungen ändern und zu weiteren regulatorischen Anforderungen sowie erhöhten Compliance- und Berichterstattungskosten für die Deutsche Hypothekenbank führen. Zudem könnte die Bank dazu verpflichtet sein, zusätzlich zu bereits bestehenden Beschluss-Kostenbeiträgen weitere Kostenbeiträge zu leisten. Ferner können solche Entwicklungen das Geschäft, die Geschäftsergebnisse oder die Finanzlage wesentlich beeinträchtigen. <u>Risiken im Zusammenhang mit der Prüfung der Aktiva-Qualität (Asset Quality Review) als Teil des Comprehensive Assessment</u> Die Veröffentlichung der Ergebnisse des Comprehensive Assessment oder Komponenten davon (einschließlich Ergebnisse aus dem Asset Quality Review bzw. der Stresstest-Komponenten), ihre Bewertung durch Finanzmarktteilnehmer und der allgemeine Eindruck des Marktes, dass ein Stresstest nicht streng genug ist, könnten die Reputation der Deutschen Hypothekenbank als Tochtergesellschaft der NORD/LB oder ihre Fähigkeit, sich zu refinanzieren, negativ beeinflussen sowie ihre Refinanzierungskosten erhöhen. Zudem könnten die aus den vorgenannten Aspekten resultierenden Risiken einen wesentlichen negativen Einfluss auf die Reputation, das Geschäft, die Geschäftsergebnisse oder die Finanzlage haben. <u>Anstieg der Regulierungstätigkeit</u> Die weltweite Finanzkrise hat zu einem Anstieg der Regulierungstätigkeit auf nationaler und internationaler Ebene geführt, wodurch neue Vorschriften erlassen worden sind und bereits bestehende, für den Finanzsektor geltende Vorschriften in strengerem Maße durchgesetzt werden. Dies hat einen wesentlichen Einfluss auf Compliance-Kosten und kann die Handlungsmöglichkeiten der Finanzinstitute erheblich beeinflussen. <u>Maßnahmen der Regierungen und Zentralbanken als Reaktion auf die Finanzkrise</u> Als Reaktion auf die Finanzmarktkrise gab es bedeutende Eingriffe durch die Regierungen und Zentralbanken in den Finanzdienstleistungssektor, unter anderem bei der Übernahme unmittelbarer Beteiligungen an einzelnen Finanzinstituten und der Einbringung von Kapital in anderer Form, der Übernahme von Bürgschaften für Finanzinstitute sowie der Übernahme notleidender Werte von Finanzinstituten. Die Durchführung derartiger Maßnahmen in Bezug auf andere Gesellschaften könnte Auswirkungen darauf haben, wie die Aussichten des Finanzdienstleistungssektors oder bestimmter Arten von Finanzinstrumenten insgesamt wahrgenommen werden. In diesem Fall könnte der Preis für die Finanzinstrumente der Deutschen Hypothekenbank fallen und ihre Finanzierungs- und Eigenkapitalkosten steigen, was sich wesentlich nachteilig auf das Geschäft, das Betriebsergebnis oder die

		Finanzlage auswirken könnte.
	Risiken, die den Schuldverschreibungen eigen sind	
D.3	**Zentrale Angaben zu den zentralen Risiken, die den Wertpapieren eigen sind**	**Schuldverschreibungen als nicht geeignetes Investment** Jeder potentielle Anleger in Schuldverschreibungen muss die Geeignetheit dieser Investition unter Berücksichtigung seiner eigenen Lebensverhältnisse einschätzen. **Liquiditätsrisiken** Es besteht keine Gewissheit, dass ein liquider Sekundärmarkt für Schuldverschreibungen entstehen wird, oder sofern er entsteht, dass er fortbestehen wird. In einem illiquiden Markt könnte es sein, dass ein Anleger seine Schuldverschreibungen nicht jederzeit zu angemessenen Marktpreisen veräußern kann. Die Möglichkeit, Schuldverschreibungen zu veräußern, kann darüber hinaus aus landesspezifischen Gründen eingeschränkt sein. **Marktpreisrisiko** Der Gläubiger von Schuldverschreibungen ist dem Risiko nachteiliger Entwicklungen der Marktpreise seiner Schuldverschreibungen ausgesetzt, welches sich verwirklichen kann, wenn der Gläubiger seine Schuldverschreibungen vor Endfälligkeit veräußert. **Währungsrisiko** Der Gläubiger von Schuldverschreibungen, die auf eine fremde Währung lauten ist dem Risiko ausgesetzt, dass Wechselkursschwankungen die Rendite solcher Schuldverschreibungen beeinflussen können. **[Risiko der vorzeitigen Rückzahlung** Der Gläubiger von Schuldverschreibungen ist dem Risiko ausgesetzt, dass infolge der vorzeitigen Rückzahlung seine Kapitalanlage eine geringere Rendite als erwartet aufweisen wird. Desweiteren kann der Gläubiger gezwungen sein, zu im Vergleich zum ursprüglichen Investment schlechteren Konditionen zu reinvestieren.**]** **[Festverzinsliche Schuldverschreibungen** Der Gläubiger von festverzinslichen Schuldverschreibungen ist dem Risiko ausgesetzt, dass der Kurs einer solchen Schuldverschreibung infolge von Veränderungen des aktuellen Marktzinssatzes fällt.**]** **[Variabel verzinsliche Schuldverschreibungen** Der Gläubiger von variabel verzinslichen Schuldverschreibungen ist dem Risiko eines schwankenden Zinsniveaus und ungewisser Zinserträge ausgesetzt. 		Abwendung der Insolvenz dienenden Verfahrens gegen die Emittentin, gehen die Verbindlichkeiten aus den Schuldverschreibungen den Ansprüchen dritter Gläubiger der Emittentin aus nicht nachrangigen Verbindlichkeiten im Range nach, so dass Zahlungen auf die Schuldverschreibungen solange nicht erfolgen, wie die Ansprüche dieser dritten Gläubiger der Emittentin aus nicht nachrangigen Verbindlichkeiten nicht vollständig befriedigt sind.**]** **[Beschlüsse der Gläubiger** Da die Anleihebedingungen der Schuldverschreibungen Beschlüsse der Gläubiger im Rahmen einer Gläubigerversammlung oder durch Abstimmung ohne Versammlung vorsehen, ist ein Gläubiger dem Risiko ausgesetzt, durch einen Mehrheitsbeschluss der Gläubiger überstimmt zu werden. Sobald diese Richtlinie umgesetzt sein wird, wird das neue Recht, vorbehaltlich bestimmter Bedingungen und Ausnahmen, den Behörden erlauben, Verbindlichkeiten der Institute einschliesslich jener unter den Schuldverschreibungen ("bail-in"), abzuschreiben oder in Eigenkapitalinstrumente umzuwandeln, in welchem Fall der Gläubiger solcher Schuldverschreibungen einen grossen Teil seiner Kapitalanlage verlieren könnte. ***U.S Foreign Account Tax Compliance*-Einbehalt** Unter bestimmten Umständen könnten die Emittentin, das Clearing System, jede Zahlstelle oder Depotbank oder jeder andere Finanzintermediär verpflichtet sein, 30% Quellensteuer in Bezug auf Schuldverschreibungen, die nach dem 1 Juli 2014 begeben werden oder, je nach dem, welcher Zeitpunkt später eintritt, am oder nach dem 1. Juli 2014 bzw. dem Tag, der sechs Monate nach der Veröffentlichung der endgültigen U.S. Treasury Regulations, die den Begriff "*foreign passthru payment*" definieren, wesentlich geändert werden, gemäß bestimmter Regelungen des U.S. Internal Revenue Code (im Allgemeinen als "**FATCA**" bezeichnet) und in Verbindung mit einem zwischenstaatlichen Vertrag vom 31. Mai 2013 zwischen der Bundesrepublik Deutschland und den Vereinigten Staaten von Amerika, einzubehalten. Nach den

		Anleihebedingungen der Schuldverschreibungen werden Anleihegläubiger keine Ausgleichszahlungen als Kompensation für FATCA Einbehalte erhalten. Anleihegläubiger sollten sich mit ihren Steuerberatern bezüglich der Anwendung von FATCA auf eine Investition in die Schuldverschreibungen und die Möglichkeit eine Rückzahlung für etwaige Beträge, die unter FATCA einbehalten wurden, zu erhalten, beraten.

Risk Factors in respect of Deutsche Hypothekenbank (Actien-Gesellschaft)

Risks relating to Macroeconomic Developments

The German economy had a good start into 2014. The performance of the economy in the rest of the Eurozone, on the contrary, was characterised solely by a moderate recovery process in the first quarter. Due to an increase in geopolitical tension in Ukraine, the European economy was unable to maintain the growth in the second quarter. Further developments in the crises and new shocks related to the sovereign debt crisis cannot be excluded completely. Against this backdrop, the business conditions of Deutsche Hypothekenbank might be negatively affected.

Unexpected developments in external or internal factors have a major impact on the Bank's results. The following factors play a significant role in the Bank's success:

- The way in which the financial markets develop influences new capital market business. Additionally, funding options, liquidity management and the need for write-downs in relation to the capital market portfolio are affected in this regard.
- The way in which commercial real estate markets develop has a material impact on new business and on risk provisioning in the credit business.
- Another increase in the regulatory requirements could have a negative impact on income.

Risks associated with the Business of Deutsche Hypothekenbank

The risks described in the following result mainly from the business activities of Deutsche Hypothekenbank as a financial institution.

In general, there are certain risks associated with the activities of Deutsche Hypothekenbank. The risks, to which Deutsche Hypothekenbank is exposed, may, should they become reality, give rise to a situation in which the Bank is unable to meet its payment obligations, or cannot do so in full. It is possible to distinguish between risks relating to banking, operational risks and general business risks. There are three types of risks relating to banking risks: credit risk, market price risk and liquidity risk.

<u>Credit risk</u>

Credit risk is a component of counterparty risk and describes the risk that a loss occurs due to default or deterioration in creditworthiness of a debtor. In the case of Deutsche Hypothekenbank, credit risk therefore results primarily from the commercial lending business.

Counterparty default risk continues to represent the greatest potential risk facing the Bank. As of 30 June 2014 around 63% (31 December 2013: 66%) of the entire risk potential of Deutsche Hypothekenbank relates to counterparty default risk. Whilst the risk potential has fallen markedly in real estate lending business, a slight increase is in evidence in the area of capital market business. As expected, the total credit exposure of Deutsche Hypothekenbank fell during the first half of the year 2014, down by € 1.6 billion or 4.8% compared to 31 December 2013.

As of 30 June 2014 the proportion of the total credit exposure of Deutsche Hypothekenbank rated as "very good to good" slightly increased to 77% (31 December 2013: 76.7%). Further 16.6%

(31 December 2013: 16.9%) of the total exposure are rated as "good/satisfactory" to "still good/sufficient". The proportion of items presenting an "elevated" to "very high risk" has decreased from 5.2% as of 31 December 2013 to 5.0% as of 30 June 2014. The proportion of defaults (non-performing loans, NPL) increased very slightly to 1.4% (31 December 2013: 1.2%).

There is no guarantee that Deutsche Hypothekenbank's methods and provisions on risk management and those of its subsidiaries for identifying, monitoring and controlling credit risk, including their policies on risk management, provisions on risk management, risk management procedures, valuation methods and financing principles, are sufficient in all individual cases and will always be sufficient and appropriate in the future. It cannot be ruled out that undetected, unforeseen and unavoidable risks or risks that were not identified in the past will arise and lead to loan losses which could have a negative effect on the net assets, financial position and results of operations of Deutsche Hypothekenbank and/or its subsidiaries and could limit Deutsche Hypothekenbank's ability to make payments under the Notes.

Market price risk

Deutsche Hypothekenbank and its subsidiaries are exposed to market price risks. Market price risk comprises the potential losses which may result from changes in market parameters. Deutsche Hypothekenbank divides market price risk substantially into interest rate risk, credit spread risk and foreign exchange risk/currency risk.

The value-at-risk (VaR) ("**Value-at-Risk**") measure of Deutsche Hypothekenbank for the interest rate risk (Going Concern: confidence level 95%, holding period 1 day) was € 1.9 million as of the reporting deadline on 30 June 2014, producing an average value of € 1.6 million. The limit utilisation during the first half of the year 2014 was at an average of 57% and the limit was not exceeded at any point.

Credit spread risk in the banking book defines potential changes in value which would result in the banking book if the credit spread applicable for the respective issuer, borrower or reference entity used for the market value of the item changed.

The value-at-risk (VaR) ("**Value-at-Risk**") measure of Deutsche Hypothekenbank for the market price risk including credit spread risk of the banking book (Going Concern: confidence level 95%, holding period 1 day) was € 25.6 million as of the reporting deadline on 30 June 2014, producing an average value of € 28.1 million. The limit utilisation during the first half of the year 2014 was at an average of 58%. The limit was not exceeded at any point.

In accordance to Deutsche Hypothekenbank's business strategy of reducing the public sector lending portfolio, the buying of securities and loans exposed to credit spread risk in the capital market business is solely pursued for the purpose of liquidity and cover pool management as well as Bank management and is limited to low-risk titles with short residual maturities.

In addition to the positive market development, the nominal volume of positions connected to credit spread risks was reduced on schedule by roughly 8% to € 15,550.6 million.

Deutsche Hypothekenbank and its subsidiaries conduct substantial amounts of their business in currencies other than the Euro, most importantly in U.S. dollars and Great Britain Pound. Foreign exchange effects can significantly affect the Issuer's income as well as the risk-weighted assets. To the extent the Issuer continues to recognize operating income in currencies other than Euro, it will encounter foreign exchange risk, which could have a material adverse effect on its business, results of operations or financial condition.

For currency risks Deutsche Hypothekenbank pursued the general strategy of hedging individual transactions. The foreign exchange exposure of Deutsche Hypothekenbank's lending activities is hedged on a back-to-back basis with the aim of eliminating all currency risk. The foreign exchange exposure is limited and monitored on a daily basis.

If any of the Issuer's instruments and strategies to hedge market price risk is not effective, the Issuer may not be able to effectively mitigate its risk exposures.

In the event that market developments are not anticipated or forecasted by Deutsche Hypothekenbank and its subsidiaries or if forecasts regarding market developments prove to be incorrect, this could have a negative effect on the net assets, financial and income position of Deutsche Hypothekenbank and/or its subsidiaries and in extreme cases limit the ability of Deutsche Hypothekenbank to make

payments under the Notes.

Liquidity risk

Deutsche Hypothekenbank and its subsidiaries are subject to liquidity risks.

Liquidity risk describes the risk that may arise from disturbances in the liquidity of individual parts of the capital market, unexpected events in the lending or deposit business or the deterioration of Deutsche Hypothekenbank's own refinancing conditions. Thereby it can be differentiated between classical liquidity risk, funding risk and market liquidity risk.

As a result of liquidity risk, Deutsche Hypothekenbank may be unable to meet its obligations as they fall due to a sudden and protracted increase in cash outflows. Such outflows would deplete available cash resources *i.e.* for client lending. Should it become impossible to raise liquidity in the capital markets, the net assets, financial position and results of operations of Deutsche Hypothekenbank and/or its subsidiaries could be impaired, and Deutsche Hypothekenbank's ability to make payments under the Notes could be limited. In extreme circumstances a lack of liquidity could result in reductions in the balance sheet and sales of assets, or potentially of an inability to fulfil lending commitments. Asset sales, balance sheet reductions and the increasing costs of funding will affect its result.

Operational risk

Operational risk describes the risk of direct or indirect losses incurred due to the unsuitability or failure of human beings, technical systems or internal processes or as a result of external events.

In the first half of 2014, there was no damage of an operational kind that had a notable impact on Deutsche Hypothekenbank's income situation. No risks with high potential damage were identified in this period.

It cannot be ruled out that the precautions taken by Deutsche Hypothekenbank and its subsidiaries against operational risk may be insufficient in individual cases. The realisation of such a risk could have a negative effect on the net assets, financial position and results of operations of Deutsche Hypothekenbank and/or its subsidiaries which could limit Deutsche Hypothekenbank's ability to make payments under the Notes.

General business risk

General business risk is understood to refer to the type of risk that arises as a result of changes in the economic climate. This includes market conditions, customer behaviour and technical advances. Changes in market conditions can cause the demand for products offered by Deutsche Hypothekenbank to disappear or be severely reduced. Customer behaviour can change in such a way that they increasingly take their business to competitors. One cause for this could be that the Bank's reputation could have been compromised (reputation risk). Technical advances can also give rise to risks that mean that certain of the Bank's products are no longer required, as their form or packaging mean they no longer fulfil the current needs of the Bank's customers.

Risks to operating income can arise if the anticipated volumes of new business cannot be generated on the markets subject to the anticipated margins. There is also the risk that the portfolio volume will not perform to the level anticipated in the Bank's plans and expectations. This is influenced by general factors, largely affected by customer behaviour in respect of ordinary and extraordinary repayment of loans.

It cannot be completely ruled out that there could be a deterioration of the European sovereign debt crisis, in particular regarding the development of the government finances and the economic climate of a large number of industrial countries, particularly with regard to Portugal, Italy, Ireland, Greece and Spain. This could have an indirect effect on the trend in the risk result. Potentially dramatic distortions on the real estate markets would lead to correspondingly adjusted high levels of risk provisioning.

The banking regulatory reform process, which has not yet been concluded, represents a potential source of risk, because the results of this reform process could affect the Banks' equity requirements, lending practice and ultimately its profitability.

The realisation of such a risk could have a negative effect on the financial position of Deutsche Hypothekenbank and/or its subsidiaries which could limit Deutsche Hypothekenbank's ability to make payments under the Notes.

Financial transaction tax

In 2011, the European Commission presented a draft directive to introduce an EU-wide financial transaction tax ("**FTT**"). However, the introduction of such a tax across Europe failed due to opposition from individual EU Member States. In June 2012, the goal of introducing the FTT in the eurozone as a whole was finally abandoned. The Member States in favour of such a tax agreed to utilise enhanced cooperation to implement the FTT. In January 2013, the Council decided that eleven countries (including Germany) may introduce a FTT and in February 2013 the Commission approved a corresponding proposal for a Council Directive for enhanced cooperation ("**Draft**"). The legislative process has not yet come to an end.

The Draft currently provides for the taxation of all financial transactions, with shares and bonds due to be taxed at the rate of 0.1% and derivatives at 0.01%. Pursuant to the "residence principle", transactions will be taxed if one of the parties to the transaction is resident in a participating Member State, irrespective of where the transaction takes place. To protect against circumvention, the Draft provides for an "issuance principle", according to which in the case of financial instruments issued in one of the eleven Member States, taxation takes place even if the parties to the transaction in question are not resident in a participating Member State. At present, it is difficult to assess what effect the FTT will have on the Issuer and ultimately this will in particular depend on the legal structure of the FTT ("Risks inherent to regulation") and on the reactions of the other financial market participants following the introduction of the tax ("Market-relevant risks").

Risks inherent to regulation

In several EU Member States, special taxes are already levied on banks. If these special taxes continue to exist alongside the FTT or if the capital from the FTT is not creditable against the structure of funds (e.g. for settlement or deposit protection), there will be the risk that the FTT will lead to a significant additional burden on the Issuer. If the FTT were also to cover all of those transactions which have the effect of hedging against risks, this would likewise lead to higher costs for the Issuer. Furthermore, if transactions within credit institution groups, such as the Issuer's group, were also not made exempt from the FTT, transactions would be exposed to multiple burdens, whose economic background is possibly not associated with any transfer of property. Ultimately, this could also lead to significant financial burdens on the Issuer. These risks inherent to regulation could have an adverse effect on the Issuer's assets, financial position and results of operations.

Market-relevant risks

The introduction of the FTT could lead to a reduction in the volumes of products traded on the financial markets – this is precisely what the European legislator intends – as transactions with smaller margins (as in the case of high-frequency trading for example) would be unprofitable if subjected to the FTT. If the activities of market makers are not to be made exempt from the FTT, this could also lead to a further reduction in trading volumes and it could make the creation of stable prices on the financial markets more difficult. Because of the FTT, investors might turn to other markets and products from providers unaffected by the FTT. This could also reduce liquidity in the markets. In the case of illiquid markets, the Issuer is exposed to greater market risks which can lead to (i) increased costs for the Issuer's capital and liquidity position, (ii) write-down requirements with regard to existing asset positions, such as participations held by the Issuer in particular, and (iii) a loss of demand for the services and financial products offered by the Issuer. These market-relevant risks could have an adverse effect on the Issuer’s assets, financial position and results of operations.

The risks inherent to regulation and the market-relevant risks described above could give rise to adverse effects on the ability of the Issuer to meet its obligations arising from the Notes issued under the Programme.

Effects

The risks referred to above may have a direct or indirect effect upon the earnings position of the Bank and could also reduce its ability to fulfil its payment obligations. Deutsche Hypothekenbank was already included in full in the risk management and in the risk controlling of the NORD/LB Group on various levels prior to the exercising of the simplification rules in accordance with Section 2a KWG (waiver rule) that was described in the section "Control and profit and loss transfer agreement with

waiver rule".

Due to the simplification as a result of exercising the waiver, Deutsche Hypothekenbank no longer has to prepare a risk-bearing capacity report on the level of the individual institute. Deutsche Hypothekenbank will supply the required information that will be consolidated within the scope of the risk-bearing capacity calculation of NORD/LB for the Group.

The risk management of Deutsche Hypothekenbank, the associated organisational structure and workflows, the risk measurement and monitoring procedures and methods implemented, have all been explained in detail in the risk report of the management report in the annual report 2013 of Deutsche Hypothekenbank on pages 54 et seqq. Additionally, the changes in risk management of Deutsche Hypo which entered into force as of 30 June 2014 have been explained in the risk report of the management report in the half-yearly financial report 2014 on pages 17 et seqq.

Other matters

Since its launch in 2013, significant progress has been made in the preparation for, and the implementation of the Single Supervisory Mechanism ("**SSM**") pursuant to which the European Central Bank (ECB), supported by the participating national competent authorities (NCAs, such as BaFin), will be responsible for conducting banking supervision in the euro area. The SSM is legally based on EU Regulation No. 1022/2013 of the European Parliament and Council (the "**SSM Regulation**"). Amongst others, Deutsche Hypothekenbank as a subsidiary of the NORD/LB Group will indirectly become subject to the ECB's supervision under the SSM. As preparatory steps for the ECB assuming its new supervisory tasks under the SSM in November 2014, supervisory risk assessments, asset quality reviews, balance sheet assessments and stress test(s) in relation to specific banks of the Eurozone will be conducted, including in relation to NORD/LB Group. One part of the comprehensive assessment is the asset quality review ("**AQR**") which is currently ongoing and consists of three phases (i) the portfolio selection, in order to identify the most risky portfolios in bank's balance sheet and thereby the focus of the exercise (ii) the actual review of the assets, collateral and provisioning in the selected portfolios and level-3 fair-value assets, which will be preceded by the collection of data and data integrity validation and (iii) the quality assurance and reporting of results expected for October/November 2014.

Risks relating to regulatory changes

The existing banking and financial services laws may change at any time in such a way that the business of Deutsche Hypothekenbank may be impaired. As a result, the way management is conducted, the products or services offered and the value of the assets may be materially affected Furthermore, regulatory authorities have the right to initiate administrative or judicial proceedings against Banks, which may substantially affect the business, financial results and the financial position of Deutsche Hypothekenbank.

Stress tests may adversely affect the Issuer's business

Through the affiliation to the NORD/LB Group, Deutsche Hypothekenbank is indirectly subject to the next EU-wide stress testing exercise initiated by the European Banking Authority ("**EBA**") in 2014. NORD/LB and its Subsidiaries may, as a consequence of stress tests, be subject to measures initiated by the German financial regulatory authorities *Bundesanstalt für Finanzdienstleistungsaufsicht* ("**BaFin**") and Deutsche Bundesbank (the "**German Central Bank**"), the EBA and/or the European Central Bank ("**ECB**"). The results from normal operations of Deutsche Hypothekenbank may be adversely affected if negative results were to be received on such stress tests. Furthermore, the publication of the results of the stress test (and its findings), their evaluation by financial market participants and the market's general impression that such a stress test is not designed in a robust enough manner could have a negative impact on the reputation or the ability to fund oneself as well as increase the costs of funding or require other remedial actions. Further, the risks arising from the aforementioned aspects could have a material adverse effect on the reputation, business, results from normal operations or financial condition of Deutsche Hypothekenbank.

Risks arising from the so-called Single Supervisory Mechanism (SSM)

Procedures within the Single Supervisory Mechanism (SSM) and the Single Resolution Mechanism (SRM) and/or other regulatory initiatives could change interpretation of regulation requirements applicable and lead to additional regulatory requirements, increased cost of compliance and reporting for Deutsche Hypothekenbank. Furthermore, such developments may have other material adverse effects on the business, results from normal operations or financial condition.

Risks referring to the audit of asset quality (Asset Quality Review) as part of the Comprehensive Assessment

The publication of the results of the comprehensive assessment or its components (including findings arising from the AQR and/or the stress test component), their evaluation by financial market participants and the market's general impression that a stress test is not strict enough could have a negative impact on the reputation of Deutsche Hypothekenbank or its ability to fund itself as well as increase its costs of funding. Further, the risks arising from the aforementioned aspects could have a material adverse effect on the Issuer's reputation, business, results from normal operations or financial condition.

Increase in regulatory activity

The global financial crisis has led to an increase in regulatory activities at national and international level, by creating and adopting new rules applicable to the financial sector and enforcing existing rules in a stricter degree. This may have a significant impact on compliance costs and may significantly affect the capabilities of the financial institutions.

Governmental and central bank action in response to the financial crisis

In response to the financial markets crisis, there has been significant intervention by governments and central banks in the financial services sector, inter alia in taking direct shareholdings in individual financial institutions and contributions of other forms of capital, taking over guarantees of debt and purchasing distressed assets from financial institutions. The implementation of any such measures with respect to other companies could affect the perception of the overall prospects for the financial services sector or for certain financial instruments. In such case the price for the financial instruments of Deutsche Hypothekenbank could drop and the cost of funding and capital could rise, which could have a material adverse effect.

Risk Factors in respect of the Notes

Notes may not be a suitable Investment for all Investors

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

(i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;

(ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;

(iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, or where the currency for principal or interest payments is different from the potential investor's currency;

(iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of financial markets; and

(v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Liquidity Risk

Application has been made to list Notes to be issued under the Programme on the Luxembourg Stock Exchange or the Hanover Stock Exchange. In addition, the Programme provides that Notes may be listed on further stock exchanges or may not be listed at all. Regardless of whether the Notes are listed or not, there can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity than if they were not listed. If the Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Market Price Risk

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policy of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The Holder of Notes is therefore exposed to the risk of an unfavourable development of market prices of the Notes which materialises if the Holder sells the Notes prior to the final maturity of such Notes.

Currency Risk

A Holder of a Note denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks.

A change in the value of any currency other than euro against the euro, for example, will result in a corresponding change in the euro value of a Note denominated in a currency other than euro and the euro value of interest and principal payments made in accordance with the terms of such Note. If the underlying exchange rate falls and the value of the euro correspondingly rises, the price of the Note and the value of interest and principal payments made thereunder expressed in euro falls.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Risk of Early Redemption

The applicable Final Terms will indicate whether the Issuer may have the right to call the Notes prior to maturity (optional call right) on one or several dates determined beforehand or whether the Notes will be subject to early redemption upon the occurrence of an event specified in the applicable Final Terms (early redemption event). In addition, the Issuer will always have the right to redeem the Notes if the Issuer is required to pay additional amounts (gross-up payments) on the Notes for tax reasons as set out in the Terms and Conditions. If the Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a Holder of such Notes is exposed to the risk that due to such early redemption his investment will have a lower than expected yield. The Issuer can be expected to exercise his optional call right if the yield on comparable Notes in the capital market has fallen which means that the investor may only be able to reinvest the redemption proceeds in comparable Notes with a lower yield. On the other hand, the Issuer can be expected not to exercise his optional call right if the yield on comparable Notes in the capital market has increased. In this event an investor will not be able to reinvest the redemption proceeds in comparable Notes with a higher yield. It should be noted, however, that the Issuer may exercise any optional call right irrespective of market interest rates on a call date.

Fixed Rate Notes

A Holder of a Fixed Rate Note is exposed to the risk that the price of such Note falls as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Note, the current interest rate on the capital market ("**market interest rate**") typically changes on a daily basis. As the market interest rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the market interest rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Note is

approximately equal to the market interest rate. If the market interest rate falls, the price of a Fixed Rate Note typically increases, until the yield of such Note is approximately equal to the market interest rate. If the Holder of a Fixed Rate Note holds such Note until maturity, changes in the market interest rate are without relevance to such Holder as the Note will be redeemed at a specified redemption amount, usually the principal amount of such Note.

Floating Rate Notes

A Holder of a Floating Rate Note is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the yield of Floating Rate Notes over the lifetime of such Notes.

Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

Subordinated Notes

The obligations of the Issuer in case of Subordinated Notes constitute unsecured and subordinated obligations. In the event of dissolution, liquidation or bankruptcy of the Issuer, the obligations under the Notes may be satisfied only after non-subordinated claims of creditors have been satisfied so that in any such event no amounts shall be payable in respect of such obligations until the claims of all third party creditors in respect of unsubordinated obligations of the Issuer will have been satisfied in full. Subject to this subordination provision, the Issuer has the right to fulfill the obligation under the Notes out of other free assets. No Holder may set off its claims arising under the Notes against any claims of the Issuer. No security of whatever kind or guarantee is, or will at any time be, providedby the Issuer or any other person to secure rights of the Holders under the Notes. No subsequent agreement may limit the subordination pursuant to the provisions set out in § 2 of the Terms and Conditions of the Notes or amend the Maturity Date in respect of the Notes to any earlier date or shorten any applicable notice period (*Kündigungsfrist*).

If the Notes are redeemed before the Maturity Date other than in the circumstances described in § 2(1) of the Terms and Conditions or as a result of an early redemption according to § 4 of the Terms and Conditions or repurchased by the Issuer, then the amounts redeemed or paid must be returned to the Issuer irrespective of any agreement to the contrary unless the relevant supervisory authority has consented to such redemption or repurchase. A cancelation or redemption of the Notes according to § 4 of the Terms and Conditions or a repurchase of the Notes prior to the Maturity Date is in either case only permitted after the prior consent of the relevant supervisory authority.

Resolutions of Holders

Since the Notes provide for meetings of Holders or the taking of votes without a meeting, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As such majority resolution is binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.

Holders' Representative

Since the Notes provide for the appointment of a Holders' Representative, either in the Terms and Conditions or by a majority resolution of the Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' Representative who is then exclusively responsible to claim and enforce the rights of all the Holders.

Bail-In/Debt-Write down tool

The European Parliament and Council have adopted Directive 2014/59/EU of the European Parliament and the Council "establishing a framework for the recovery and resolution of credit institutions and investment firms and amending Council Directives 77/91/EEC and 82/891/EC, Directives 2001/24/EC, 2002/47/EC, 2004/25/EC, 2005/56/EC, 2007/36/EC and 2011/35/EC and Regulation (EU) No 1093/2010" (the "**BRRD**"). Once implemented, the new legislation will, among other resolution action and subject to certain conditions and exemptions, allow the resolution authorities to write-down, or convert into equity instruments, liabilities of the institutions including under the Notes ("bail-in") in which case the Holder of such Notes might loose a substantial part of his investment once (a) the competent authority or resolution authority determines that the institution is failing or likely to fail, (b) having regard to timing and other relevant circumstances, there is no

reasonable prospect that any alternative private sector or supervisory action, other than a resolution action taken in respect of the institution, would prevent the failure of the institution within a reasonable timeframe, and (c) a resolution action is necessary in the public interest, all in accordance with the relevant legislation implementing the BRRD. The bail-in tool is to be introduced by not later than 1 January 2016. Germany, however, might implement the bail-in tool at an earlier date.

In anticipation of the BRRD, a framework for the recovery and resolution of credit institutions and investment firms was introduced into German Law in 2010, as last amended effective 13 August 2013. The framework provides for an obligation to establish recovery and resolution plans and for the possibility of the regulator to split up a financial institution into viable and non-viable parts (including an allocation of liabilities to either part), but for the time being does not provide for a bail-in mechanism as envisaged by the BRRD.

Potential investors in the Notes should therefore take into consideration that, in the event of a crisis of the Issuer and thus already prior to any liquidation or insolvency or such procedures being instigated, they will to a particular extent be exposed to a risk of default and that, in such a scenario, it is likely that they will suffer a partial or full loss of their invested capital, or that the Notes will be subject to a conversion into one or more equity instruments (*e.g.* common equity) of the Issuer. As a consequence, the European Central Bank, the German Financial Supervisory Authority (BaFin), any other competent supervisory or other authority might in any such situation be entitled, *inter alia*, to demand – for instance as a prerequisite for the granting of state or similar support – that any interest thereon not be paid and that the nominal amount of any Notes be reduced down to zero, or impose other regulatory measures, including, but not limited to, conversion of the Notes into one or more equity instruments (*e.g.* common equity). Any such regulatory measure may release the Issuer from its obligations under the terms and conditions of the Notes. In such circumstances, Holders would not be entitled to demand early redemption of the Notes, or to exercise any other rights in this respect.

Also, pursuant to such aforementioned measures, the initial debtor of the Notes (*i.e.* the Issuer) may be replaced by another debtor (who may have a fundamentally different risk profile or creditworthiness than the Issuer). Alternatively, the claims may remain with the original debtor, but this situation regarding the debtor's assets, business activity and/or creditworthiness may not be identical to the situation prior to the application of the measure.

U.S. Foreign Account Tax Compliance Withholding

Under certain provisions of the U.S. Internal Revenue Code (commonly referred to as "**FATCA**"), the Issuer and its non-U.S. subsidiaries will generally become subject to a 30% withholding tax on certain payments they receive unless they enter into an agreement (a "**FATCA agreement**") with the U.S. Internal Revenue Service (the "**IRS**") pursuant to which they agree to report to the IRS information about their "United States accounts" and comply with certain procedures to be further determined by the IRS. However, on 31 May 2013 the United States and the Federal Republic of Germany concluded an intergovernmental agreement to "Improve International Tax Compliance and with respect to the United States Information and Reporting Provisions Commonly Known as the Foreign Account Tax Compliance Act" (the "**German IGA**") and in July 2014 the German regulation for implementation of the obligations under the IGA took effect. Under the German IGA, the United States and the Federal Republic of Germany have agreed to implement FATCA through domestic reporting duties for financial institutions, an automatic exchange of account information between the public authorities of the two countries and on the basis of existing bilateral tax treaties. Pursuant to Article 4 of the German IGA the Issuer and its German subsidiaries are treated as FATCA compliant provided that they comply with the requirements under the German IGA ("**deemed-compliant FFI**"). In order to retain their status as deemed-compliant FFI the Issuer and its German subsidiaries would have to report to the German tax authorities (and thus, indirectly, to the IRS) accountholders that are U.S. persons for purposes of U.S. federal income taxation.

In addition, the Issuer (or if payments on the Notes are made through an intermediary such as a clearing system or broker that is a deemed-compliant FFI pursuant to an applicable intergovernmental agreement or that has entered into a FATCA-agreement with the IRS, such deemed-compliant FFI) may be required, pursuant to the German IGA (or if payments on the Notes are made through an intermediary pursuant to the intermediary's FATCA agreement or an applicable intergovernmental agreement), to apply a 30% withholding tax (a "**FATCA Witholding**") to any "foreign passthru payment" made on the Notes (i) to a foreign financial institution that is not a participating FFI, (ii) to accountholders who have not

identified themselves as not being U.S. persons for purposes of U.S. federal income taxation or (iii) to accountholders who have not consented, where necessary, to have their information disclosed to the IRS. Under current guidance, the term "foreign passthru payment" is not defined (although conceptually the term refers to the portion of each payment made by a participating FFI in the same ratio that such participating FFI's U.S.-source income bears to its overall income). This guidance is subject to change and it is not yet clear whether or to what extent payments by the Issuer (including payments on the Notes) will be treated as foreign passthru payments.

However, provided the Notes are not treated as equity for U.S. federal income tax purposes, and unless the Notes are materially modified on or after the later of 1 July 2014 and the date that is six months after the date of publication of final U.S. Treasury regulations defining the term "foreign passthru payment", no payment on a Note issued before that date will be subject to FATCA Withholding. With respect to Notes that are treated as equity for U.S. federal income tax purposes or are issued, or materially modified, on or after the later of 1 July 2014 and the date that is six months after the date of publication of final U.S. Treasury regulations defining the term "foreign passthru payment" ("non-grandfathered Notes"), payment in respect of the Notes may become subject to FATCA Withholding. Nevertheless, no FATCA Withholding will be required on non-grandfathered Notes before the later of 1 January 2017 and the date of publication of final U.S. Treasury regulations defining the term "foreign passthru payment."

The U.S. Treasury Department and the IRS recently issued final regulations that implement certain provisions of FATCA. The Treasury Department and the IRS may issue additional guidance and regulations that may alter the application of FATCA to the Issuer and the Notes. Further, it is not yet clear whether or to what extent payments on non-grandfathered Notes will be subject to FATCA under the rules in the German IGA.

Pursuant to the terms and conditions of the Notes, holders of the Notes will not receive any gross-up payments in compensation of FATCA Withholdings. Holders of the Notes should consult their tax advisers regarding the application of FATCA to an investment in the Notes and their ability to obtain a refund of any amounts withheld under FATCA.

General Description of the Programme

I. General

Under the Programme, Deutsche Hypothekenbank may from time to time issue notes (the "**Notes**") to one or more of the Dealers and any additional Dealer appointed under the Programme by the Issuer from time to time. The maximum aggregate principal amount of the Notes outstanding under the Programme will not exceed EUR 15,000,000,000 (or its equivalent in any other currency). The Issuer may increase the amount of the Programme in accordance with the terms of the Dealer Agreement.

Notes under the Programme may be issued as unsecured obligations of the Issuer, as Mortgage Pfandbriefe (*Hypothekenpfandbriefe)* or Public Pfandbriefe (*Öffentliche Pfandbriefe)*. The Notes may be offered to qualified and non-qualified investors.

Notes in bearer form will be issued in Tranches (each a "**Tranche**"), each Tranche consisting of Notes which are identical in all respects. One or more Tranches, which are expressed to be consolidated and forming a single series and are identical in all respects, but may have different issue dates, interest commencement dates, issue prices and dates for first interest payments may form a series of Notes ("**Series**"). Further Notes may be issued as part of existing Issues.

Notes may be issued at an issue price which is at par or at a discount to, or premium over, par as stated in the relevant Final Terms. The Notes will be freely transferable.

The yield for Notes with fixed interest rates will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

Subject to any applicable legal or regulatory restrictions, notably the Pfandbrief Act, and requirements of relevant central banks, monetary or other authorities, Notes may be issued in Australian Dollar, Canadian Dollar, euro, Japanese Yen, Pound Sterling, Swiss Franc, U.S. Dollar or any other currency agreed by the Issuer and the relevant Dealer(s).

Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in euro, EUR 1,000, and, if in any currency other than euro, an amount in such other currency nearly equivalent to EUR 1,000 at the time of the issue of the Notes. Subject to any applicable legal or regulatory restrictions, and requirements of relevant central banks, Notes may be issued in euro or any other currency.

Application has been made to list Notes, including Pfandbriefe, to be issued under the Programme on the regulated market of the Hanover Stock Exchange or on the Official List of the Luxembourg Stock Exchange and to trade Notes on the regulated market of the Luxembourg Stock Exchange. Notes may be listed on further stock exchanges or may not be listed at all.

Notes will be accepted for clearing through one or more Clearing Systems as specified in the applicable Final Terms. These systems will comprise those operated by Clearstream Banking AG, Frankfurt am Main, Clearstream Banking société anonyme, Luxembourg and Euroclear Bank SA/NV. If the Notes are intended to be held in a manner, which would allow Eurosystem eligibility, the Notes will be deposited initially upon issue with in the case of (i) a new global note either Clearstream Banking société anonyme, Luxembourg or Euroclear Bank SA/NV as common safekeeper or, (ii) a classical global note Clearstream Banking AG, Frankfurt. It does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

Under the Luxembourg Law prospectuses relating to money market instruments having a maturity at issue of less than 12 months and complying also with the definition of securities are not subject to the approval provisions of Part II of such law.

II. Issue Procedures

Documentation of the Conditions

The Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of the Option I to Option VI, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions alone shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche. This type of documentation of the Conditions will be required where the Notes are publicly offered, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.

- Alternatively, the Final Terms shall determine which of Option I to Option VI and of the respective further options contained in each of Option I to Option VI are applicable to the individual issue by referring to the relevant provisions of the relevant set of Terms and Conditions as set out in the Prospectus only. The Final Terms will specify that the provisions of the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus attached.

Determination of Options / Completion of Placeholders

The Final Terms shall determine which of the Option I to Option VI shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I to Option VI contains also certain further options (characterised by indicating the respective optional provision through instructions and explanatory notes set out either on the left of or in square brackets within the text of the relevant set of Terms and Conditions as set out in the Prospectus) as well as placeholders (characterised by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

Determination of Options

The Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the respective sections of the relevant set of Terms and Conditions as set out in the Prospectus. If the Final Terms do not refer to an alternative or optional provision or such alternative or optional provision is not replicated therein it shall be deemed to be deleted from the Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In the case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

All instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

Business Overview

Principal Activities

As a Pfandbriefbank Deutsche Hypothekenbank (Actien-Gesellschaft) focuses on all aspects of financing and consultancy associated with real estate. In line with its current business strategy the Bank specialises in commercial financing with professional real estate customers. Its business activities also comprise capital market transactions with German and foreign market operators. Deutsche Hypothekenbank (Actien-Gesellschaft) is also involved in refinancing through the issuance of Pfandbriefe.

Principal Markets

Deutsche Hypothekenbank operates in Germany, the United Kingdom, France, the Benelux countries and Poland.

The Bank has its headquarters in Hanover, with operations in Hamburg, Frankfurt am Main and Munich, as well as in Amsterdam, London and Paris.

The Bank is also engaged in public sector lending, providing refinancing not only for the German Federal Government, the *Bundesländer* and local German authorities but also for member states of the European Union, for Switzerland, for the United States of America, for Canada and for Japan. In accordance with the new strategic requirements, Deutsche Hypo's public sector lending is solely pursued in a restrictive manner and primarily for liquidity and cover pool management as well as bank management.

Major Shareholders

The Bank's current shareholder is Norddeutsche Landesbank Girozentrale, Hanover, Brunswick and Magdeburg ("**NORD/LB**") (100.00%).

The owners of Norddeutsche Landesbank Girozentrale are the German states of Lower Saxony and Saxony-Anhalt, the Savings Banks Association Lower Saxony (*Sparkassenverband Niedersachsen*), the Saxony-Anhalt Savings Banks Holding Association (*Sparkassenbeteiligungsverband Sachsen-Anhalt*) and the Special Purpose Holding Association of the Mecklenburg-Western Pomerania Savings Banks (*Sparkassenbeteiligungszweckverband Mecklenburg-Vorpommern*).

Business and dependency of the Issuer within the Group

Hanover-based NORD/LB holds a 100.00% share in Deutsche Hypothekenbank (Actien-Gesellschaft). As noted by NORD/LB in the notes to the 2013 consolidated financial statements of NORD/LB, NORD/LB shall ensure that Deutsche Hypothekenbank is able to meet its obligations. The Board of Managing Directors of NORD/LB and Deutsche Hypothekenbank (Actien-Gesellschaft) have each signed on 29 May 2013 a control and profit and loss transfer agreement between both companies, which was registered with the commercial register on 18 June 2013. It entered into force retroactively on 1 January 2013. NORD/LB obligates itself to take over possible losses at its subsidiary.

In the first quarter of 2013, Deutsche Hypo also decided to apply the simplification options in

accordance with Section 2a (1) of the German Banking Act (KWG), the so-called waiver rule, and reported this to the German Financial Supervisory Authority (BaFin) in Bonn in a letter dated 7 June 2013. The simplification options were used for the first time as of the reporting deadline on 30 June 2013. As a result, the following regulatory requirements no longer have to be applied for Deutsche Hypo as an individual institution, but rather are reported on the Group level:

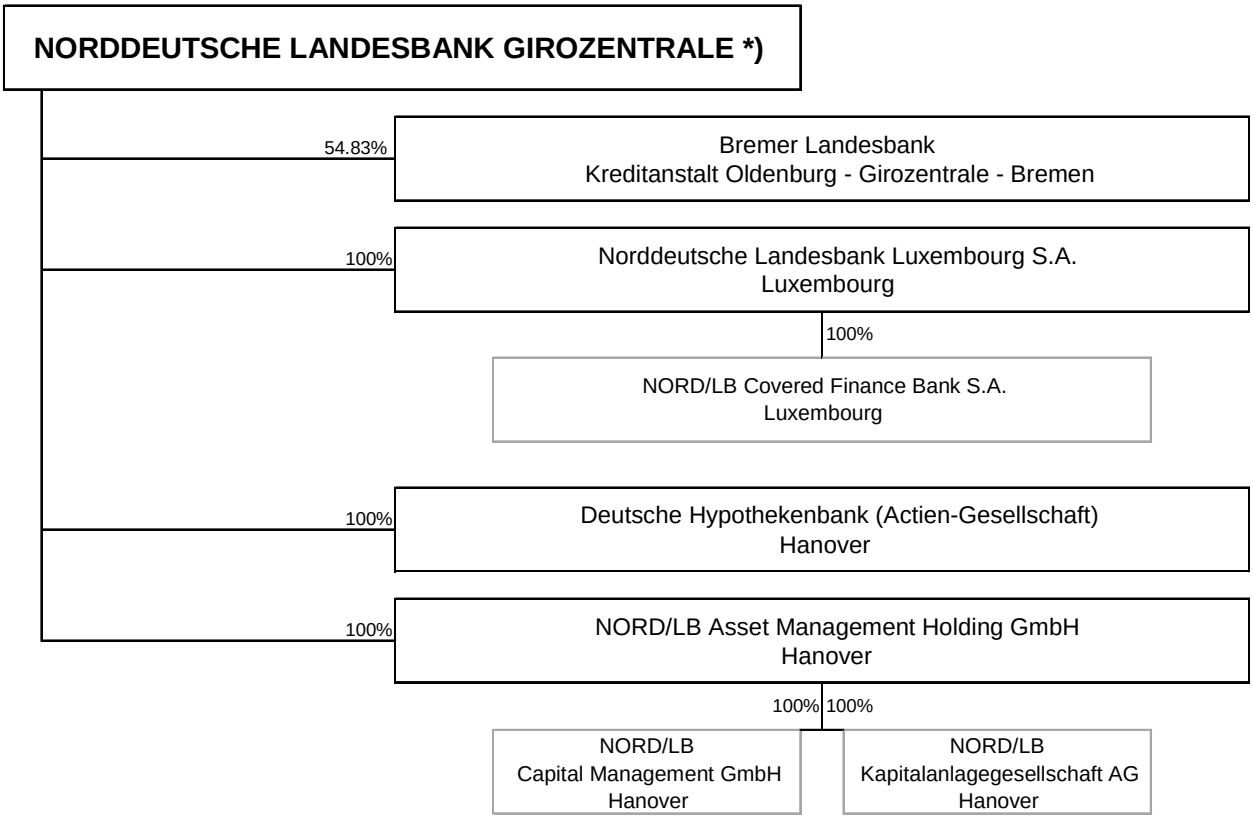
- Section 10 KWG: Requirement of appropriate equity capital resources on the level of the institution;
- Sections 13, 13a KWG: Requirements for large exposure notification;
- Section 25a (1) Clause 3 No. 1 KWG: Determination and ensuring of the risk-bearing capacity, specifying (risk) strategies, setting up processes for the identification, evaluation, control, monitoring and communication of risks.

Although Deutsche Hypo is no longer required to meet the aforementioned regulatory obligations, its autonomy according to its articles of association means that it will continue to identify, evaluate, manage and communicate its risks in accordance with the requirements of the Group strategy. Furthermore, it is ensured that Deutsche Hypo as a Pfandbrief bank meets the requirements of the German Pfandbrief Act (PfandBG) and particularly the requirements for risk management in accordance with Section 27 of the German Pfandbrief Act (*Pfandbriefgesetz* - PfandBG).

NORD/LB runs Deutsche Hypothekenbank as a participation and strategic investment in order to extend NORD/LB's own business model. NORD/LB's motives for the takeover in 2007/2008 were of a strategic nature and gave priority to the Bank's expertise and quality of its staff, its market presence and its structure. As a Pfandbriefbank, Deutsche Hypothekenbank is run as competence centre of commercial real estate financing within the NORD/LB Group.

Organisational Structure

Deutsche Hypothekenbank (Actien-Gesellschaft) forms part of NORD/LB Group. The position of the Bank within NORD/LB Group is shown in the following diagram:



*) Other subsidiaries and affiliated companies can be found in the NORD/LB Annual Report 2013 on p. 254 et seqq.

Trend Information

Deutsche Hypothekenbank believes that its business model is sustainable, with regard to both commercial real estate finance and to capital market and funding business.

Commercial real estate finance business:

Deutsche Hypo aims to strengthen its profile in the area of commercial real estate finance as the German mortgage bank with a European focus. The focus is on business with a relationship to the German market, which makes up more than 60% of the business activities. Furthermore, the Bank selected core regions in which it is also largely represented. These core regions are the UK, the Benelux states, France and Poland. Conversely, the existing credit portfolios in Spain and also in the USA are in run off.

On account of the pleasing developments of new business volume Deutsche Hypothekenbank assumes a significant increase from the previous year. The net interest income is anticipated to be slightly higher than in the prior year. Due to the economic recovery in the target regions and the ongoing improvement in the quality of the real estate finance portfolio, this is expected to bring an ongoing slight improvement in the risk result. In total, compared to 2013 Deutsche Hypo assumes a slightly higher year-on-year result from normal operations for financial year 2014 in the commercial real estate finance business.

Capital market business:

The capital market business will also be affected by the strategic objective to reduce the capital market portfolio. In accordance with the development in the past financial year, the Bank will solely pursue selective new business for liquidity and cover pool management. As a result, Deutsche Hypothekenbank anticipates slightly declining year-on-year net interest income in the capital market business compared to 2013. In total, however, the area of capital market business is expected to see a slight improvement in the result from normal operations, since lower one-off expenses within the risk result are expected in comparison to the past financial year.

Bank as a whole:

Against the backdrop of the outlined forecasts for the significant business areas, Deutsche Hypothekenbank assumes a positive course of business in 2014 and a result from normal operations that confirms the level of € 64.3 million in financial year 2013.

Given its business activities and underlying business model, Deutsche Hypothekenbank faces the following major risks:

Deutsche Hypo sees opportunities in the possibility that the already mentioned real estate markets – unimpacted by the European sovereign debt crisis – will continue to be strong and consistently rise in value. The Bank is striving to pursue the project development business and the real estate investment banking in its core markets. The financing is to be increasingly syndicated and structured with a higher amount of collateral; both reduce the credit risk. Besides the direct business with customised financing, Deutsche Hypo primarily aims for an expansion of business in the saving banks (Sparkassen) network.

Deutsche Hypothekenbank continues to see latent potential for repercussions from the EU sovereign debt crisis and will therefore continue with the previously begun, systematic reduction of risks in the banking book to protect the income statement. It can be assumed though, that a return of the crisis may have an impact on the economic performance, the new business volume or possibly the risk result of the Bank. Also, there continue to be geopolitical uncertainties.

Generally, Deutsche Hypo faces the risk of not being able to generate the expected level of new business at the planned margins on its target markets, whereby a reduction in income in one market may be offset to a certain extent by additional income in another market, particularly as the Bank considers itself well positioned with a diversified credit portfolio. Overall, Deutsche Hypo expects moderate risks from changes in interest rates and exchange rates; particularly, credit spread risks can lead to a further increase in hidden charges. The ongoing resolution to the European sovereign debt crisis offers good opportunities for a reduction in the previous charges. Pfandbriefe and uncovered bonds are the Bank's main sources of funding; in particular, the issuing of mortgage Pfandbriefe is the basis for the fact that the Bank can provide its customers with attractive conditions and reduces liquidity risk.

Operational risks are checked at all times and largely eliminated through emergency plans. The Bank's customers and investors appreciate primarily its many years of continuous activity on the market and the high level of expertise and reliability.

The integration of Deutsche Hypo in the NORD/LB Group offers not only comfort through the control and profit and loss transfer agreement, but also numerous ways to increase efficiency. The reporting of the waiver results in simplifications in terms of Section 2a KWG. A lower over-collateralisation of the cover assets as a result of the rating improvement increases the profitability of the Bank.

Another important cornerstone for Deutsche Hypo's good starting point is its comfortable equity ratio, which ensures its solid risk-bearing capacity in ongoing business operations. Regulatory requirements such as e.g. Basel III, however, contribute to the fact that the requirements concerning capital and also the risk-bearing capacity are constantly increasing. Furthermore, external shocks such as a significant intensification of the sovereign debt crisis may lead to higher hidden charges and thus to a possible reduction in the risk-bearing capacity.

There has been no material adverse change in the prospects of the Issuer since the date of its last published audited financial statements, 31 December 2013.

Credit Rating of the Issuer

The Bank has been assigned with the following rating(s) by Moody's Investors Service ("**Moody's**")[1]:

Long-term deposit and debt ratings: Baa1 (negative outlook)

Short-term rating: Prime-2 (stable outlook)

BFSR: E+ mapping into a B1 BCA

Subordinated debt rating: Ba1

The notes issued by the Bank have been assigned with the following rating(s) by Moody's:

Mortgage Pfandbriefe: Aa2

Public Pfandbriefe: Aa2

Senior Unsecured Notes: Baa1 (negative outlook)

Subordinated Notes: Ba3

Moody's expresses issuer ratings according to its general long-term and short-term scales. Moody's ratings scale for long term debt obligations ranges from Aaa (highest quality, lowest level of credit risk) to C (lowest rated and typically in default, with little prospects for recovery of principal or interest).

Obligations rated Aa are judged to be of high quality and are subject to very low credit risk. Obligations rated Baa are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative elements. Obligations rated Ba possess speculative elements and are judged to be subject to considerable credit risk. Issuers rated Prime-2 are notably able to repay short-term debt.

Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of the generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of the generic rating category.

In the case of Notes which are initially represented by a Temporary Global Note the following applies

[(3) *Temporary Global Note – Exchange.*

(a) The Notes are initially represented by a temporary global note (the "**Temporary Global Note**") without interest coupons. The Temporary Global Note will be exchangeable for a permanent global note (the "**Permanent Global Note**") without interest coupons. (4) *Clearing System*. Each Global Note representing the Notes will be kept in custody by or on behalf of the Clearing System. The Permanent Global Note will be kept in custody by or on behalf of the Clearing System until all obligations of the Issuer under the Notes have been satisfied. "**Clearing System**" means **[if more than one Clearing System the following applies:** each of**]** the following: **[**Clearstream Banking AG, Neue Börsenstraße 1, 60487 Frankfurt am Main,

Federal Republic of Germany ("**Clearstream Frankfurt**")**] [**Clearstream Banking, société anonyme, 42 Avenue JF Kennedy, 1855 Luxembourg, Grand Duchy of Luxembourg ("**Clearstream Luxembourg**")**] [**Euroclear Bank SA/NV, Boulevard du Roi Albert II, 1210 Brussels, Belgium ("**Euroclear**")**] [**(Clearstream Luxembourg and Euroclear each an "**ICSD**" and together the "**ICSDs**")**]** and any successor in such capacity.

The records of the ICSDs (which expression means the records that each ICSD holds for its customers which reflect the amount of such customer's interest in the Notes) shall be conclusive evidence of the aggregate principal amount of Notes represented by the Global Note and, for these purposes, a statement issued by an ICSD stating the amount of Notes so represented at any time shall be conclusive evidence of the records of the relevant ICSD at that time.

On any redemption or payment of an instalment or interest being made in respect of, or purchase and cancellation of, any of the Notes represented by the Global Note the Issuer shall procure that details of any redemption, payment or purchase and cancellation (as the case may be) in respect of the Global Note shall be entered *pro rata* in the records of the ICSDs and, upon any such entry being made, the aggregate principal amount of the Notes recorded in the records of the ICSDs and represented by the Global Note shall be reduced by the aggregate principal amount of the Notes so redeemed or purchased and cancelled or by the aggregate amount of such instalment so paid.

[In the case of a Temporary Global Note the following applies: On an exchange of a portion only of the Notes represented by a Temporary Global Note, the Issuer shall procure that details of such exchange shall be entered pro rata in the records of the ICSDs.**]]**

In the case of Notes kept in custody on behalf of the ICSDs and the global note is a CGN the following applies

In the case of Subordinated Notes the following applies

[§ 2
Status

(1) The obligations under the Notes constitute unsecured and subordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other subordinated obligations of the Issuer, with the exception of all those subordinated claims against the Issuer which pursuant to their terms or by virtue of law are subordinated to the claims under the Notes or which are expressed to rank junior to the Notes. In the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer, such obligations will be fully subordinated to the claims of third party creditors of the Issuer under unsubordinated obligations so that in any such event no amounts shall be payable under such obligations until the claims of third party creditors of the Issuer under unsubordinated obligations shall have been satisfied in full. Considering this subordination provision the Issuer is free to meet its obligations under the Notes also out of other free assets. No Holder may set off its claims arising under the Notes against any claims of the Issuer. No security or guarantee of whatever kind is, or shall at any time be, provided by the Issuer or any other person securing rights of the Holders under such Notes.

(2) No subsequent agreement may limit the subordination pursuant to subparagraph (1) or amend the Maturity Date in respect of the Notes to any earlier date or shorten any applicable notice period *(Kündigungsfrist)*. If the Notes are redeemed early other than in the circumstances described in § 2 (1) or as a result of an early redemption according to § 4 (2) **[**or**]** **[**§ 4 (3)**]** **[**or**]** **[**§ 4 (4)**]** **[**or**]** **[**§ 4 (5)**]** or repurchased by the Issuer, then the amounts redeemed or paid must be returned to the Issuer irrespective of any agreement to the contrary unless the competent supervisory authority has consented to such redemption or repurchase. Any redemption or termination of the Notes in accordance with § 4 or any repurchase of the Notes prior to maturity is in either case only permitted with the prior consent of the competent supervisory authority.**]**

§ 3
Interest

(1) *Rate of Interest and Interest Payment Dates.*

The Notes shall bear interest on their aggregate principal amount at the rate of **[rate of interest]** % *per annum* from (and including) **[interest commencement date]** to (but excluding) the Maturity Date (as defined in § 5(1)).

Interest shall be payable in arrear on **[interest payment date]** in each year (each such date, an "**Interest Payment Date**"). The first payment of interest shall be made on **[first interest payment date]** and will amount to **[initial broken amount]** per Specified Denomination. Interest in respect of the period from (and including) **[interest payment date preceding the Maturity Date]** to (but excluding) the Maturity Date will amount to **[final broken amount]** per Specified Denomination.**]**

(2) *Accrual of Interest*. The Notes shall cease to bear interest as from the beginning of the day on which they are due for redemption. If the Issuer shall fail to redeem the Notes when due, interest shall (except in the circumstances provided in § 5 (4) continue to accrue on the outstanding principal amount of the Notes from (and including) the due date to (but excluding) the date of actual redemption of the Notes at the default rate of interest established by law[1], unless the rate of interest under the Notes is higher than the default rate of interest established by law, in which event the rate of interest under the Notes continues

Status

(1) The obligations under the Notes constitute unsecured and subordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other subordinated obligations of the Issuer, with the exception of all those subordinated claims against the Issuer which pursuant to their terms or by virtue of law are subordinated to the claims under the Notes or which are expressed to rank junior to the Notes. In the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer, such obligations will be fully subordinated to the claims of third party creditors of the Issuer under unsubordinated obligations so that in any such event no amounts shall be payable under such obligations until the claims of third party creditors of the Issuer under unsubordinated obligations shall have been satisfied in full. Considering this subordination provision the Issuer is free to meet its obligations under the Notes also out of other free assets. No Holder may set off its claims arising under the Notes against any claims of the Issuer. No security or guarantee of whatever kind is, or shall at any time be, provided by the Issuer or any other person securing rights of the Holders under such Notes.

(2) No subsequent agreement may limit the subordination pursuant to subparagraph (1) or amend the Maturity Date in respect of the Notes to any earlier date or shorten any applicable notice period *(Kündigungsfrist)*. If the Notes are redeemed early other than in the circumstances described in § 2 (1) or as a result of an early redemption according to § 4 (2) **[**or**]** **[**§ 4 (3)**]** **[**or**]** **[**§ 4 (4)**]** **[**or**]** **[**§ 4 (5)**]** or repurchased by the Issuer, then the amounts redeemed or paid must be returned to the Issuer irrespective of any agreement to the contrary unless the competent supervisory authority has consented to such redemption or repurchase. [(3) *Vorläufige Globalurkunde – Austausch*.

(a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die eigenhändigen Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Anleiheschuldnerin und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.

(b) Die vorläufige Globalurkunde wird frühestens an einem Tag (der "**Austauschtag**") gegen die Dauerglobalurkunde austauschbar, der 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegt. Der Austauschtag darf nicht vor Ablauf von 40 Tagen nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegen. [Die Schuldverschreibungen werden in Form einer new global note ("**NGN**") ausgegeben und von einem common safekeeper im Namen beider ICSDs verwahrt.

Der Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen entspricht dem jeweils in den Registern beider ICSDs eingetragenen Gesamtbetrag. Die Register der ICSDs (unter denen man die Register versteht, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind maßgeblicher Nachweis über den Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen, und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bescheinigung mit dem Betrag der so verbrieften Schuldverschreibungen ist ein maßgeblicher Nachweis über den Inhalt des Registers des jeweiligen ICSD zu diesem Zeitpunkt.

Die Schuldverschreibungen sind untereinander gleichberechtigt.**]**

Im Fall von nachrangigen Schuldverschreibungen ist folgendes anwendbar

[§ 2

Im Fall der Auflösung, der Liquidation oder der Insolvenz der Emittentin, oder eines Vergleichs oder eines anderen der Abwendung der Insolvenz dienenden Verfahrens gegen die Emittentin, gehen die Verbindlichkeiten aus den Schuldverschreibungen den Ansprüchen dritter Gläubiger der Emittentin aus nicht nachrangigen Verbindlichkeiten im Range vollständig nach, so dass Zahlungen auf die Schuldverschreibungen solange nicht erfolgen, wie die Ansprüche dieser dritten Gläubiger der Emittentin aus nicht nachrangigen Verbindlichkeiten nicht vollständig befriedigt sind. Unter Beachtung dieser Nachrangregelung bleibt es der Emittentin unbenommen, ihre Verbindlichkeiten aus den Schuldverschreibungen auch aus dem sonstigen freien Vermögen zu bedienen. Kein Gläubiger ist berechtigt, mit Ansprüchen aus den Schuldverschreibungen gegen Ansprüche der Emittentin aufzurechnen. Den Gläubigern wird für ihre Rechte aus den Schuldverschreibungen weder durch die Emittentin noch durch Dritte irgendeine Sicherheit oder Garantie gestellt; eine solche Sicherheit oder Garantie wird auch zu keinem späteren Zeitpunkt gestellt werden.

(2) Nachträglich können der Nachrang gemäß § 2(1) nicht beschränkt sowie die Laufzeit der Schuldverschreibungen und jede anwendbare Kündigungsfrist nicht verkürzt werden. Eine Kündigung oder Rückzahlung der Schuldverschreibungen nach Maßgabe von § 5 oder ein Rückkauf der Schuldverschreibungen vor Endfälligkeit ist in jedem Fall nur mit vorheriger Zustimmung der zuständigen Aufsichtsbehörde zulässig.**]**

§ 3

Einzelurkunden und Zinsscheine werden nicht ausgegeben.**]**

Falls Schuldverschreibungen anfänglich durch eine vorläufige Globalurkunde verbrieft sind, ist folgendes anwendbar

[(3) *Vorläufige Globalurkunde – Austausch*.

(a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die eigenhändigen Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Anleiheschuldnerin und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.

(b) Die vorläufige Globalurkunde wird frühestens an einem Tag (der "**Austauschtag**") gegen die Dauerglobalurkunde austauschbar, der 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegt. Der Austauschtag darf nicht vor Ablauf von 40 Tagen nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegen. Ein solcher Austausch darf nur nach Vorlage von Bescheinigungen gemäß U.S. Steuerrecht erfolgen, wonach der oder die wirtschaftlichen Eigentümer der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind (ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten). Die Bescheinigungen müssen den Anforderungen entsprechen, welche sich aus den diesbezüglichen jeweils anwendbaren Verordnungen des Finanzministeriums der Vereinigten Staaten ergeben. Zinszahlungen auf durch eine vorläufige Globalurkunde verbriefte Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. (4) *Clearing System.* Jede Schuldverschreibungen verbriefende Globalurkunde wird von einem oder im Namen eines Clearing Systems verwahrt. Die Dauerglobalurkunde wird solange von einem oder im Namen eines Clearing Systems verwahrt, bis sämtliche Verbindlichkeiten der Anleiheschuldnerin aus den Schuldverschreibungen erfüllt sind. "**Clearing System**" bedeutet **[bei mehr als einem Clearing System ist folgendes anwendbar:** jeweils**]** folgendes: **[**Clearstream Banking AG, Neue Börsenstraße 1, 60487 Frankfurt am Main, Bundesrepublik Deutschland ("**Clearstream Frankfurt**")**] [**,**] [**und**] [**Clearstream Banking, société anonyme, 42 Avenue JF Kennedy, 1855 Luxemburg, Großherzogtum Luxemburg ("**Clearstream Luxemburg**")**] [**Euroclear Bank SA/NV, Boulevard du Roi Albert II, 1210 Brüssel, Belgien ("**Euroclear**")**] [**Clearstream Luxemburg und Euroclear jeweils ein "**ICSD**" und zusammen die "**ICSDs**"**]** sowie jeder Funktionsnachfolger.

Die Register der ICSDs (unter denen man die Register versteht, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind maßgeblicher Nachweis über den Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen, und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bescheinigung mit dem Betrag der so verbrieften Schuldverschreibungen ist ein maßgeblicher Nachweis über den Inhalt des Registers des jeweiligen ICSD zu diesem Zeitpunkt.

Bei Rückzahlung oder Zahlung einer Rate oder einer Zinszahlung bezüglich der durch die Globalurkunde verbrieften Schuldverschreibungen bzw. bei Kauf und Entwertung der durch die Globalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten über Rückzahlung und Zahlung bzw. Im Fall der Auflösung, der Liquidation oder der Insolvenz der Emittentin, oder eines Vergleichs oder eines anderen der Abwendung der Insolvenz dienenden Verfahrens gegen die Emittentin, gehen die Verbindlichkeiten aus den Schuldverschreibungen den Ansprüchen dritter Gläubiger der Emittentin aus nicht nachrangigen Verbindlichkeiten im Range vollständig nach, so dass Zahlungen auf die Schuldverschreibungen solange nicht erfolgen, wie die Ansprüche dieser dritten Gläubiger der Emittentin aus nicht nachrangigen Verbindlichkeiten nicht vollständig befriedigt sind. Unter Beachtung dieser Nachrangregelung bleibt es der Emittentin unbenommen, ihre Verbindlichkeiten aus den Schuldverschreibungen auch aus dem sonstigen freien Vermögen zu bedienen. Kein Gläubiger ist berechtigt, mit Ansprüchen aus den Schuldverschreibungen gegen Ansprüche der Emittentin aufzurechnen. Den Gläubigern wird für ihre Rechte aus den Schuldverschreibungen weder durch die Emittentin noch durch Dritte irgendeine Sicherheit oder Garantie gestellt; eine solche Sicherheit oder Garantie wird auch zu keinem späteren Zeitpunkt gestellt werden.

(2) Nachträglich können der Nachrang gemäß § 2(1) nicht beschränkt sowie die Laufzeit der Schuldverschreibungen und jede anwendbare Kündigungsfrist nicht verkürzt werden. Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz festzustellen ist, den auf die Schuldverschreibungen zahlbaren Zinsbetrag (der "**Zinsbetrag**") in bezug auf jede festgelegte Stückelung für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt durch Multiplikation des auf eine Zinsperiode anzuwendenden Zinssatzes mit jeder festgelegten Stückelung, wobei dieses Produkt mit dem Zinstagequotienten (wie nachstehend definiert) multipliziert wird. Der so errechnete Betrag wird auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet, wobei 0,5 solcher Einheiten aufgerundet werden.

Eine solche Kündigung darf allerdings nicht (i) früher als 90 Tage vor dem frühestmöglichen Termin erfolgen, an dem die Anleiheschuldnerin verpflichtet wäre, solche zusätzlichen Beträge zu zahlen, falls eine Zahlung auf die Schuldverschreibungen dann fällig sein würde, oder (ii) erfolgen, wenn zu dem Zeitpunkt, zu dem die Kündigung erfolgt, die Verpflichtung zur Zahlung von zusätzlichen Beträgen nicht mehr wirksam ist. Der für die Rückzahlung festgelegte Termin muß ein Zinszahlungstag sein.

Eine solche Kündigung hat gemäß § **[**14**]** zu erfolgen. Sie ist unwiderruflich, muß den für die Rückzahlung festgelegten Termin nennen und eine zusammenfassende Erklärung enthalten, welche die das Rückzahlungsrecht der Anleiheschuldnerin begründenden Umstände darlegt.**]**

Einzelurkunden und Zinsscheine werden nicht ausgegeben.**]**

Falls Pfandbriefe anfänglich durch eine vorläufige Globalurkunde verbrieft sind, ist folgendes anwendbar

[(3) *Vorläufige Globalurkunde – Austausch.*

(a) Die Pfandbriefe sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die eigenhändigen Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Emittentin und des von der Bundesanstalt für Finanzdienstleistungsaufsicht bestellten Treuhänders und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.

(b) Die vorläufige Globalurkunde wird frühstens an einem Tag (der "**Austauschtag**") gegen die Dauerglobalurkunde austauschbar, der 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegt. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß Absatz (b) dieses § 1 Absatz 3 auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, sind nur außerhalb der Vereinigten Staaten zu liefern. Für die Zwecke dieses Absatzes 3 bezeichnet "**Vereinigte Staaten**" die Vereinigten Staaten von Amerika (einschließlich deren Bundesstaaten und des District of Columbia) sowie deren Territorien (einschließlich Puerto Rico, der U.S. Virgin Islands, Guam, American Samoa, Wake Island und Northern Mariana Islands).**]**

(4) *Clearing System.* Jede Pfandbriefe verbriefende Globalurkunde wird von einem oder im Namen eines Clearing Systems verwahrt. Die Register der ICSDs (unter denen man die Register versteht, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Pfandbriefen führt) sind schlüssiger Nachweis über den Gesamtnennbetrag der durch die Globalurkunde verbrieften Pfandbriefe, und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bescheinigung mit dem Betrag der so verbrieften Pfandbriefe ist ein schlüssiger Nachweis über den Inhalt des Registers des jeweiligen ICSD zu diesem Zeitpunkt.

Bei Rückzahlung oder Zahlung einer Rate oder einer Zinszahlung bezüglich der durch die Globalurkunde verbrieften Pfandbriefe bzw. bei Kauf und Entwertung der durch die Globalurkunde verbrieften Pfandbriefe stellt die Emittentin sicher, dass die Einzelheiten über Rückzahlung und Zahlung bzw. (3) *Berechnung der Zinsen für Teile von Zeiträumen.* Sofern Zinsen für einen Zeitraum von weniger als einem Jahr zu berechnen sind, erfolgt die Berechnung auf der Grundlage des Zinstagequotienten (wie nachstehend definiert).

"**Euro- Zone**" bezeichnet das Gebiet derjenigen Mitgliedstaaten der Europäischen Union, die Teilnehmerstaaten der Europäischen Wirtschafts- und Währungsunion sind. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, ist der Zinssatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser Angebotssätze **[[**zuzüglich**] [**abzüglich**]** der Marge**]**, wobei alle Feststellungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfeststellungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen Angebotssätze nennt, ist der Zinssatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der Angebotssätze ermittelt, die von der Berechnungsstelle in angemessener Sorgfalt ausgewählte Großbanken im Interbanken-Markt in der Euro-Zone der Berechnungsstelle auf ihre Anfrage als den jeweiligen Satz nennen, zu dem sie um ca. 11.00 Uhr (Brüsseler Ortszeit) am betreffenden Zinsfestlegungstag Darlehen in der festgelegten Währung für die betreffende Zinsperiode und über einen repräsentativen Betrag gegenüber führenden europäischen Banken anbieten **[[**zuzüglich**] [**abzüglich**]** der Marge**]**.

"**Referenzbanken**" bezeichnet vier Großbanken im Interbanken-Markt in der Euro-Zone.**]**

Falls der Angebotssatz für Einlagen in der festgelegten Währung LIBOR ist, ist folgendes anwendbar

[(2) *Zinssatz*. Der Zinssatz (der "**Zinssatz**") für jede Zinsperiode ist, sofern nachstehend nichts Abweichendes bestimmt wird, der Angebotssatz (ausgedrückt als Prozentsatz *per annum*) für Einlagen in der festgelegten Währung für die jeweilige Zinsperiode, der auf der Bildschirmseite am Zinsfeststellungstag (wie nachstehend definiert) gegen 11.00 Uhr (Londoner Ortszeit) angezeigt wird **[[**zuzüglich**] [**abzüglich**]** der Marge (wie nachstehend definiert)**]**, wobei alle Feststellungen durch die Berechnungsstelle, wie in § 6 Absatz 1 benannt, erfolgen.

"**Zinsperiode**" bezeichnet den Zeitraum von dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) bzw. von jedem Zinszahlungstag (einschließlich) bis zum jeweils darauffolgendem Zinszahlungstag (ausschließlich).

"**Zinsfeststellungstag**" bezeichnet den **[**ersten**][**zweiten**] [relevante(s) Finanzzentrum(en)]** Geschäftstag vor Beginn der jeweiligen Zinsperiode. **[relevante(s) Finanzzentrum(en)]** Geschäftstag bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem Geschäftsbanken in **[relevante(s) Finanzzentrum(en)]** für Geschäfte (einschließlich Devisen- und Sortengeschäfte) geöffnet sind.

"**Bildschirmseite**" bedeutet **[**LIBOR01**] [**LIBOR02**]** oder die jeweilige Nachfolgeseite, die vom selben System angezeigt wird oder aber von einem anderen System, das zum Vertreiber von Informationen zum Zwecke der Anzeige von Sätzen oder Preisen ernannt wurde, die dem betreffenden Angebotssatz vergleichbar sind.

Sollte die Bildschirmseite nicht zur Verfügung stehen oder wird kein Angebotssatz angezeigt zu der genannten Zeit, wird die Berechnungsstelle von

den Londoner Hauptniederlassungen jeder der Referenzbanken (wie nachstehend definiert) deren jeweilige Angebotssätze (jeweils als Prozentsatz *per annum* ausgedrückt) für Einlagen in der festgelegten Währung für die betreffende Zinsperiode und über einen repräsentativen Betrag gegenüber führenden Banken im Londoner Interbanken-Markt um ca. 11.00 Uhr (Londoner Ortszeit) am Zinsfeststellungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, ist der Zinssatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Hunderttausendstel Prozent, wobei 0,000005 aufgerundet wird) dieser Angebotssätze **[[**zuzüglich**] [**abzüglich**]** der Marge**]**, wobei alle Feststellungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfeststellungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen Angebotssätze nennt, ist der Zinssatz für die betreffende Zinsperiode der Satz per annum, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Hunderttausendstel Prozent, wobei 0,000005 aufgerundet wird) der Angebotssätze ermittelt, die von der Berechnungsstelle in angemessener Sorgfalt ausgewählte Großbanken im Londoner Interbanken-Markt der Berechnungsstelle auf ihre Anfrage als den jeweiligen Satz nennen, zu dem sie um ca. 11.00 Uhr (Londoner Ortszeit) am betreffenden Zinsfestlegungstag Darlehen in der festgelegten Wäh¬rung für die betreffende Zinsperiode und über einen repräsentativen Betrag gegenüber führenden europäischen Banken anbieten **[[**zuzüglich**] [**abzüglich**]** der Marge**]**.

Im Falle eines Mindestzinssatz, ist folgendes anwendbar

[(3) *Mindest-Zinssatz.* Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz niedriger ist als **[Mindestzinssatz]**, so ist der Zinssatz für diese Zinsperiode **[Mindestzinssatz]**.**]**

Im Falle eines Höchstzinssatz, ist folgendes anwendbar

[(3) *Höchst-Zinssatz.* Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als **[Höchstzinssatz]**, so ist der Zinssatz für diese Zinsperiode **[Höchstzinssatz]**.**]**

[(4)**]** *Zinsbetrag.* Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz festzustellen ist, den auf die Pfandbriefe zahlbaren Zinsbetrag (der "**Zinsbetrag**") in bezug auf jede festgelegte Stückelung für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt durch Multiplikation des auf eine Zinsperiode anzuwendenden Zinssatzes mit jeder festgelegten Stückelung, wobei dieses Produkt mit dem Zinstagequotienten (wie nachstehend definiert) multipliziert wird. Der so errechnete Betrag wird auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet.

[(5)**]** *Mitteilung von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der relevante Zinszahlungstag der Emittentin und jeder Börse, an der die betreffenden Pfandbriefe zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, sowie den Gläubigern gemäß § 10 baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden **[**TARGET**] [**Londoner**] [zutreffende andere Bezugnahme]** Geschäftstag (wie in § 3 Absatz 2 definiert) mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepaßt (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Pfandbriefe zu diesem Zeitpunkt notiert sind, sowie den Gläubigern

gemäß § 10 mitgeteilt.

[(6)**]** *Verbindlichkeit der Festsetzungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle **[**, die Zahlstellen**]** und die Gläubiger bindend.

[(7)**]** *Auflaufende Zinsen.* Falls die Emittentin die Pfandbriefe bei Endfälligkeit nicht einlöst, endet die Verzinsung der Pfandbriefe nicht an dem Tag (einschließlich), der dem Endfälligkeitstag vorausgeht, sondern an dem Tag (einschließlich), der der tatsächlichen Rückzahlung der Pfandbriefe vorausgeht. Die Verzinsung des ausstehenden Nennbetrages vom Tag der Fälligkeit an (einschließlich) bis zum Tag der Rückzahlung der Pfandbriefe (ausschließlich) erfolgt in Höhe des gesetzlich festgelegten Satzes für Verzugszinsen[1].

[(8)**]** *Zinstagequotient*. "**Zinstagequotient**" bezeichnet im Hinblick auf die Berechnung des Zinsbetrages auf einen Pfandbrief für einen beliebigen Zeitraum (der "**Zinsberechnungszeitraum**"):

[1] Der gesetzliche Verzugszinssatz beträgt für das Jahr fünf Prozentpunkte über dem von der Europäischen Zentralbank von Zeit zu Zeit festgelegten Basiszinssatz, §§ 288 Absatz 1, 247 BGB.

Falls Actual/Actual (ICMA Regel 251) anwendbar ist und wenn der Zinsberechnungszeitraum länger ist als eine Bezugsperiode (langer Kupon) ist folgendes anwendbar (schliesst den Fall eines langen *und* eines kurzen Kupons ein)

[die Summe aus:

Taxation

The following is a general discussion of certain German, Luxembourg, UK, Irish, Austrian and Italian tax consequences of the acquisition and ownership of Notes. This discussion does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws of the Federal Republic of Germany, the Grand-Duchy of Luxembourg, the United Kingdom of Great Britain and Northern Ireland, the Republic of Ireland, the Republic of Austria and the Republic of Italy currently in force and as applied on the date of this prospectus. These laws are subject to change, possibly with retroactive or retrospective effect.

Prospective purchasers of Notes are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of notes, including the effect of any state or local taxes, under the tax laws applicable in the Federal Republic of Germany, the Grand Dutchy of Luxembourg, the United Kingdom of Great Britain and Northern Ireland, the Republic of Ireland, the Republic of Austria, the Republic of Italy and each country of which they are residents.

1. Taxation in the Federal Republic of Germany

Income tax

Notes held by tax residents as private assets

- Taxation of interest

Payments of interest on the Notes to Holders who are tax residents of the Federal Republic of Germany (*i.e.*, persons whose residence or habitual abode is located in the Federal Republic of Germany) are subject to German income tax. In each case where German income tax arises, a solidarity surcharge (*Solidaritätszuschlag*) is levied in addition. Furthermore, church tax may be levied, where applicable. If coupons or interest claims are disposed of separately *(i.e.* without the Notes), the proceeds from the disposition are subject to income tax. The same applies to proceeds from the redemption of coupons or interest claims if the Note is disposed of separately.

On payments of interest on the Notes to individual tax residents of the Federal Republic of Germany income tax is generally levied as a flat income tax at a rate of 25% (plus solidarity surcharge in an amount of 5.5% of such tax, resulting in a total tax charge of 26.375%, plus, if applicable, church tax). The total investment income of an individual will be decreased by a lump sum deduction (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for married couples or registered civil partnerships filing jointly), not by a deduction of expenses actually incurred.

If the Notes are held in a custodial account which the Holder maintains with a German branch of a German or non-German bank or financial services institution or with a securities trading business or bank in the Federal Republic of Germany (the "**Disbursing Agent**") the flat income tax will be levied by way of withholding at the aforementioned rate from the gross interest payment to be made by the Disbursing Agent.

If the Notes are not kept in a custodial account with a Disbursing Agent and interest or proceeds from the disposition of Coupons are paid or credited upon delivery of the Coupons to the Holder of the Coupons (other than a non-German bank or financial services institution), withholding tax at the aforementioned rate must also be levied by the Disbursing Agent upon the gross amount of the interest or the proceeds.

In general, no withholding tax will be levied if the Holder is an individual (i) whose Note does not form part of the property of a trade or business and (ii) who filed a withholding exemption certificate *(Freistellungsauftrag)* with the Disbursing Agent but only to the extent the interest income derived from the Note together with other investment income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no withholding tax will be deducted if the Holder has submitted to the Disbursing Agent a certificate of non-assessment *(Nichtveranlagungs-Bescheinigung)* issued by the relevant local tax office.

If no Disbursing Agent (as defined above) is involved in the payment process the Holder will have to include its income on the Notes in its tax return and the flat income tax of 25% plus solidarity

surcharge and, if applicable, church tax will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25%. Pursuant to the current view of the German tax authorities (which has recently been rejected by a fiscal court in a non-binding ruling appealed to the German Federal Fiscal Court (*Bundesfinanzhof*)), in this case as well income-related expenses cannot be deducted from the investment income, except for the aforementioned annual lump sum deduction.

- Taxation of capital gains

From 1 January 2009, also capital gains realised by individual tax residents of the Federal Republic of Germany from the disposition or redemption of the Notes acquired after 31 December 2008 will be subject to the flat income tax on investment income at a rate of 25% (plus solidarity surcharge in an amount of 5.5% of such tax, resulting in a total tax charge of 26.375%, plus, if applicable, church tax), irrespective of any holding period. This will also apply to Notes on which the principal is effectively repaid in whole or in part although the repayment was not guaranteed.

If the Notes are held in a custodial account which the Holder maintains with a Disbursing Agent (as defined above) the flat income tax will be levied by way of withholding from the difference between the redemption amount (or the proceeds from the disposition) and the issue price (or the purchase price) of the Notes. If the Notes have been transferred into the custodial account of the Disbursing Agent only after their acquisition, and no evidence on the acquisition data has been provided to the new Disbursing Agent by the Disbursing Agent which previously kept the Notes in its custodial account, withholding tax will be levied on 30% of the proceeds from the disposition or redemption of the Notes.

If the Notes are not kept in a custodial account with a Disbursing Agent and proceeds from the disposition or redemption of the Notes are paid or credited upon delivery of the Notes to the Holder of such Notes (other than a non-German bank or financial services institution), withholding tax at the aforementioned rate must also be levied by the Disbursing Agent upon 30% of the gross amount of the proceeds.

If no Disbursing Agent is involved in the payment process the Holder will have to include capital gains from the disposition or redemption of the Notes in its tax return and the flat income tax of 25% plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25%. Pursuant to the current view of the German tax authorities (which has recently been rejected by a fiscal court in a non-binding ruling appealed to the German Federal Fiscal Court (*Bundesfinanzhof*)), in this case as well income-related expenses cannot be deducted from the investment income, except for the aforementioned annual lump sum deduction.

Notes held by tax residents as business assets

Payments of interest on Notes and capital gains from the disposition or redemption of Notes held as business assets by German tax resident individuals or corporations (including via a partnership, as the case may be), are generally subject to German income tax or corporate income tax (in each case plus solidarity surcharge and, if applicable, church tax). The interest and capital gain will also be subject to trade tax if the Notes form part of the property of a German trade or business.

If the Notes are held in a custodial account which the Holder maintains with a Disbursing Agent (as defined above) tax at a rate of 25% (plus a solidarity surcharge of 5.5% of such tax and, if applicable, church tax) will also be withheld from interest payments on Notes and (since 1 January 2009) generally also from capital gains from the disposition or redemption of Notes held as business assets. In these cases the withholding tax does not satisfy the income tax liability of the Holder, as in the case of the flat income tax, but will be credited as advance payment against the personal income or corporate income tax liability and the solidarity surcharge (and, if applicable, against the church tax) of the Holder.

With regard to capital gains no withholding will generally be required in the case of Notes held by corporations resident in Germany, provided that in the case of corporations of certain legal forms the

status of corporation has been evidenced by a certificate of the competent tax office, and upon application in the case of Notes held by individuals or partnerships as business assets.

Notes held by non-residents

Interest and capital gains are not subject to German taxation in the case of non-residents, *i.e.* persons having neither their residence nor their habitual abode nor legal domicile nor place of effective management in the Federal Republic of Germany, unless the Notes form part of the business property of a permanent establishment maintained in the Federal Republic of Germany. Interest may, however, also be subject to German income tax if it otherwise constitutes income taxable in Germany, such as income from the letting and leasing of certain German-situs property or income from certain capital investments directly or indirectly secured by German situs real estate.

Non-residents of the Federal Republic of Germany are in general exempt from German withholding tax on interest and capital gains and from solidarity surcharge thereon. However, if the interest or capital gain is subject to German taxation as set forth in the preceding paragraph and the Notes are held in a custodial account with a Disbursing Agent (as defined above), withholding tax will be levied as explained above at "Notes held by tax residents as business assets" or at "Notes held by tax residents as private assets", respectively.

If the Notes are not kept in a custodial account with a Disbursing Agent and interest or proceeds from the disposition of Coupons or proceeds from the disposition or redemption of the Notes are paid or credited by a Disbursing Agent to a non-resident of Germany (other than a non-German bank or financial services institution) upon delivery of the Coupons or the Notes, respectively, such payments will also be subject to withholding tax to the extent and at a rate as explained above at "Notes held by tax residents as private assets".

Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Note will generally arise under the laws of the Federal Republic of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of the Federal Republic of Germany and such Note is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in the Federal Republic of Germany. Exceptions from this rule apply to certain German citizens who previously maintained a residence in the Federal Republic of Germany.

Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in the Federal Republic of Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer)* is not levied in the Federal Republic of Germany.

2. EU Savings Tax Directive

Under the EU Council Directive 2003/48/EC dated 3 June 2003 on the taxation of savings income in the form of interest payments (the "**EU Savings Tax Directive**") each EU Member State must require paying agents (within the meaning of such directive) established within its territory to provide to the competent authority of this state details of the payment of interest made to any individual resident in another EU Member State as the beneficial owner of the interest. The competent authority of the EU Member State of the paying agent is then required to communicate this information to the competent authority of the EU Member State of which the beneficial owner of the interest is a resident.

For a transitional period, the Grand Duchy of Luxembourg opted instead to withhold tax from interest payments within the meaning of the EU Savings Tax Directive at a rate of 35% since 1 July 2011. However, Luxembourg has announced that it will cease to withhold from 1 January 2015 and instead it will apply the exchange of information procedure described above. As from 1 January 2010, Belgium applies the information procedure described above.

Regarding Austria EU withholding taxation does not have to be imposed if a particular information process is fulfilled (see also section 6 below).

In Germany, provisions for implementing the EU Savings Tax Directive were enacted by legislative regulations of the Federal Government. These provisions apply since 1 July 2005.

On 24 March 2014, the European Council adopted an EU Council Directive amending and broadening the scope of the requirements described above. In particular, the changes expand the range of payments covered by the EU Savings Tax Directive to include certain additional types of income, and widen the range of recipients payments to whom are covered by the EU Savings Tax Directive, to include certain other types of entity and legal arrangement. EU Member States are required to implement national legislation giving effect to these changes by 1 January 2016 (which national legislation must apply from 1 January 2017).

Holders who are individuals should note that the Issuer will not pay additional amounts under § 7(c) of the Terms and Conditions of the Notes in respect of any withholding tax imposed as a result of the EU Savings Tax Directive.

3. Taxation in the Grand Duchy of Luxembourg

Non-Residents

Under the existing laws of Luxembourg and except as provided for by the Luxembourg laws of 21 June 2005 implementing the EU Savings Tax Directive (as defined above), there is no withholding tax on the payment of interest on, or reimbursement of principal of, the Notes made to non-residents of Luxembourg.

Under the Luxembourg laws of 21 June 2005 implementing the EU Savings Tax Directive and as a result of ratification by Luxembourg of certain related Accords with the relevant dependent and associated territories (as defined under the EU Savings Tax Directive), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual Holder of a Note or certain residual entities, who, as a result of an identification procedure implemented by the paying agent, are identified as residents or are deemed to be residents of an EU Member State other than Luxembourg or certain of those dependent or associated territories referred to under "EU Savings Tax Directive" above, will be subject to a withholding tax unless the relevant beneficiary has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her country of residence or deemed residence or, in the case of an individual Holder of a Note, has provided a tax exemption certificate from his/her fiscal authority in the format required by law to the relevant paying agent. Where withholding tax is applied, it will be levied at a rate of 35% since 1 July 2011. However, Luxembourg has announced that it will cease to withhold from 1 January 2015 and instead it will apply the exchange of information procedure.

Residents

According to the law of 23 December 2005, as amended, interest on Notes paid by a Luxembourg paying agent or paying agents established in the EU, the EEA or in a State which has concluded with Luxembourg an international agreement related to the EU Savings Tax Directive to an individual Holder of Notes who is a resident of Luxembourg or to a residual entity established in another EU Member State or in the dependent and associated territories securing the payment for such individual will be subject to a withholding tax of 10%. In case of payment through a paying agent established in the EU, the EEA or in a State which has concluded with Luxembourg an international agreement related to the EU Savings Tax Directive, the Luxembourg resident individual Holder of Notes must under a specific procedure remit 10% tax to the Luxembourg Treasury.

If the individual Holder holds the Notes in the course of the management of his or her private wealth, the aforementioned 10% withholding tax will operate a full discharge of income tax due on such payments.

Interest on Notes paid by a Luxembourg paying agent to a resident Holder of Notes who is not an individual is not subject to withholding tax.

When used in the preceding paragraphs "*interest*", "*paying agent*" and "*residual entity*" have the meaning given thereto in the Luxembourg laws of 21 June 2005 (or the relevant Accords) and 23 December 2005, as amended. "*Interest*" will include accrued or capitalised interest at the sale, repayment or redemption of the Notes.

Payments of interest or similar income under the Notes to Clearstream Banking AG, Clearstream Banking, société anonyme and Euroclear Bank SA/NV and payments by or on behalf of Clearstream Banking, société anonyme to financial intermediaries will not give rise to a withholding tax under

Luxembourg law.

4. The United Kingdom of Great Britain and Northern Ireland

The comments below, which are of a general nature and are based on the Issuers' understanding of current United Kingdom law and H.M. Revenue & Customs practice, describe only the United Kingdom withholding tax treatment of payments in respect of the Notes. They are not exhaustive. They do not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of the Notes.

Withholding tax

So long as the Notes are and continue to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and listed on the official list of the Luxembourg Stock Exchange, payment of interest on the Notes may be made without withholding or deduction for or on account of income tax.

Interest on the Notes may be paid without withholding or deduction for or on account of tax where the Notes have a maturity date less than one year from the date of issue provided the Notes are not issued under arrangements the effect of which is to render such Notes part of a borrowing with a total term of a year or more.

Interest on the Notes may also be paid without withholding or deduction for or on account of tax where at the time the payment is made, each of the Issuers reasonably believes (and any person by or through whom interest on the Notes is paid reasonably believes) that the beneficial owner of the interest is within the charge to United Kingdom corporation tax as regards the payment of interest, provided H.M. Revenue & Customs has not given a direction that the interest should be paid under deduction of tax.

In other cases, absent any other relief or exemption (such as a direction by H.M. Revenue & Customs that interest may be paid without withholding or deduction for or on account of tax to a specified Holder following an application by that Holder under an applicable double tax treaty), an amount must generally be withheld on account of income tax at the basic rate (currently 20%.) from payments of interest on the Notes.

Where Notes are issued on terms that a premium is or may be payable on redemption, as opposed to being issued at a discount, then it is possible that any such element of premium may constitute a payment of interest and be subject to withholding on account of income tax as outlined in the preceding paragraphs.

Where Notes are issued at an issue price of less than 100%. of their principal amount, any payments in respect of the accrued discount element on any such Notes will not be made subject to any withholding or deduction for or on account of income tax as long as they do not constitute payments in respect of interest.

Where interest has been paid under deduction of income tax, Holders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted under an appropriate provision of an applicable double taxation treaty.

5. Republic of Ireland

The following is a summary based on the laws and practices currently in force in Ireland regarding the tax position of investors beneficially owning their notes and should be treated with appropriate caution. Particular rules may apply to certain classes of taxpayers holding notes. The summary does not constitute tax or legal advice and the comments below are of a general nature only. ***This summary only relates to the potential application of Irish withholding taxes to payments made under the Notes.*** *It does not deal with any other matters and in particular does not describe the taxation consequences for Irish resident or ordinarily resident Noteholders in respect of the purchase, holding,*

redemption or sale of the notes and the receipt of interest thereon. The comments are made on the assumption that the Issuers are not resident in Ireland for Irish tax purposes and do not carry on a trade in Ireland through a branch or agency. Prospective investors in the notes should consult their professional advisors on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of interest thereon under the laws of their country of residence, citizenship or domicile.

Irish Withholding Tax

Under Irish tax law there is no obligation on the Issuers to operate any withholding tax on payments of interest on the Notes except where the interest has an Irish source. The interest could be considered to have an Irish source, where, for example, interest is paid out of funds maintained in Ireland or where the Notes are secured on Irish situate assets. The mere offering of the Notes to Irish investors will not cause the interest to have an Irish source.

In certain circumstances, collection agents and other persons receiving interest on the Notes in Ireland on behalf of a Noteholder, will be obliged to operate a withholding tax.

Provision of Information

Noteholders should be aware that where any interest or other payment on Notes is paid to them by or through an Irish paying agent or collection agent then the relevant person may be required to supply the Irish Revenue Commissioners with details of the payment and certain details relating to the Noteholder. Where the Noteholder is not Irish resident, the details provided to the Irish Revenue Commissioners may, in certain cases, be passed by them to the tax authorities of the jurisdiction in which the Noteholder is resident for taxation purposes.

6. Republic of Austria

Income tax

Austrian Resident Taxpayers

Individuals having a domicile or their habitual abode in Austria or corporations having their corporate seat or their place of management in Austria are considered residents for Austrian income and corporate income tax law purposes, respectively.

Individual residents

- Notes held as private assets

Generally income arising with respect to the Notes in the form of either

(i) fixed or floating interest payments (*Zinserträge*) or

(ii) realised capital gains (*Einkünfte aus realisierten Wertsteigerungen*)

qualifies as "investment income" (*Einkünfte aus Kapitalvermögen*) and, as such, is taxed under a special regime at a flat 25%-rate. Realised capital gains are the difference between (a) the amount realised (e.g., the sale proceeds, the redemption or other pay-off amount, or the fair market value in case of a deemed realisation) and (b) the acquisition costs; in both cases (amount realised and acquisition costs) including accrued interest, if any.

For Notes held as private assets, the acquisition costs do not include ancillary acquisition costs (*Anschaffungsnebenkosten*). An average price is determined regarding Notes not acquired at the same time, but held in the same securities account with the same securities identification number. Expenses and costs (*Aufwendungen und Ausgaben*) that are directly connected with investment income are not tax effective.

Capital gains are not only taxed upon an actual disposition or redemption of the Notes, but also upon a deemed realisation, particularly upon losing the residency status in Austria (i.e. move abroad) or upon withdrawals (*Entnahmen*) and other transfers of Notes from one securities account to another one. In both cases, exemptions apply, regarding the loss of the residency status if the investor moves

to an EU Member State and regarding withdrawals and other transfers from a securities account if an information procedure is fulfilled.

If an Austrian custodian (*inländische depotführende Stelle*, also referred to as 'securities account keeping agent') or an Austrian paying agent (*auszahlende Stelle*) is involved in paying investment income (interest or capital gains), 25% withholding taxation is imposed. The 25% withholding tax generally results in a final income taxation; certain exceptions apply (in particular for investors whose regular personal income tax rate is lower than 25%). If no withholding tax is imposed (e.g., because the Notes are held through a foreign paying agent), the investment income arising from the Notes generally has to be included into the income tax return in accordance with the law.

Losses from Notes held as private assets may only offset investment income (excluding, *inter alia*, interest income from bank deposits and other claims against banks) and must not offset any other income. Mandatory loss-offsetting rules to be handled by Austrian custodians apply. A carry-forward of losses is not possible in this context.

- Notes held as business assets

Generally, the same rules as described in the previous heading apply regarding Notes that are held as business assets by tax residents who are individuals. The most important differences are the following:

- Realised capital gains, contrary to interest income, have to be included in the tax return, since despite a 25% withholding taxation that is also imposed in the context of Notes held as business assets if an Austrian custodian is involved, no final income taxation applies.
- Writedowns and realised losses regarding the Notes held as business assets are offset with positive income from realised capital gains that are investment income in the first place; 50% of the remaining losses may be offset or carried forward against any other income.
- The acquisition costs of Notes held as business assets may also include ancillary costs incurred upon the acquisition.

It is noted that expenses and costs (*Aufwendungen und Ausgaben*) directly connected with investment income are also not tax effective in case the Notes held as business assets.

Corporate residents

Corporate investors deriving business income from the Notes may avoid the application of withholding tax by filing a declaration of exemption (*Befreiungserklärung*) with the Austrian withholding tax agent. Income derived from the Notes by corporate investors (including any capital gains) is subject to corporate income tax at the general corporate income tax rate of 25%.

A special tax regime applies for private foundations (*Privatstiftungen*).

Notes held by non-residents

Individuals who have neither a domicile nor their habitual abode in Austria or corporate investors that have neither their corporate seat nor their place of management in Austria ("non-residents") are not taxable in Austria with their income derived from the Notes provided the income is not attributable to a permanent establishment in Austria and the income from the Notes is not secured by Austrian assets.

Non-resident investors who are resident individuals of an EU Member States and who hold the Notes through an Austrian paying agent have to consider the EU Savings Tax Directive regarding particular withholding tax rules (see in this respect below under the heading "*EU Savings Tax Directive*").

As of 1 January 2015, interest income from the Notes paid to non-resident investors who are not covered by the EU Savings Tax Directive would be subject to taxation in Austria if withholding taxation fell due, because the interest was paid by an Austrian withholding tax agent (*i.e.* an Austrian paying agent or an Austrian custodian), and if the debtor of the interest income had its seat or its place of management in Austria. Since the Issuer has its seat and place of management in Germany, non-resident investors not covered by the EU Savings Tax Directive are not subject to taxation with interest payments received from the Notes through an Austrian withholding tax agent. Therefore, such non-resident investors may if they receive income from the Notes through an Austrian withholding tax agent avoid Austrian withholding taxation by way of evidencing their non-resident-status vis-à-vis the withholding tax agent. If Austrian withholding tax is imposed, the investor may apply for a refund

thereof.

If non-residents receive income from the Notes through an Austrian permanent establishment, they are to a large extent subject to the same tax treatment as resident investors.

Final note on withholding tax imposed in Austria

The Issuer does not assume any responsibility for Austrian withholding tax (*Kapitalertragsteuer*) or EU Withholding Tax (*EU-Quellensteuer*) charged in Austria at source and is not obliged to make additional payments in case of withholding tax deductions at source.

7. Republic of Italy

The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Prospectus and are subject to any changes in law occurring after such date, which could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in Notes or commodities) may be subject to special rules.

Prospective purchaser of the Notes are advised to consult their tax advisers as to the overall consequences of their ownership of the Notes .

*Law Decree No. 66 of 24 April 2014 published in the Official Gazette No. 95 of 24 April 2014 ("**Decree 66**"), as converted into law with amendments by Law No. 89 of 23 June 2014 ("**Law 89**"), introduced tax provisions amending certain aspects of the tax treatment of the Notes, as summarised below. The new rules are effective as of 1 July 2014. With reference to the imposta sostitutiva set out by Decree 239 (as defined below) the increased rate applies on interest accrued as of 1 July 2014.*

Tax treatment of the Notes

Legislative Decree No. 239 of 1 April 1996, as subsequently amended ("**Decree 239**"), provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from Notes falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by non-Italian resident issuers (the "**Notes**").

Where the Italian resident Noteholder is (i) an individual not engaged in an entrepreneurial activity to which the Notes are connected (unless he has opted for the application of the *risparmio gestito* regime – see "Capital Gains Tax" below), (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to the Notes, accrued during the relevant holding period, are subject to a withholding tax, referred to as *imposta sostitutiva*, levied at the rate of 26 per cent. (20 per cent. on interest accrued up to 30 June 2014). In the event that the Noteholders described under (i) and (iii) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Pursuant to Law 89, non-commercial pension entities incorporated under Law No. 509 of 30 June 1994 or Law No. 103 of 10 February 1996 are entitled to a tax credit equal to the positive difference between withholding taxes and substitutive taxes levied at a rate of 26 per cent. on financial proceeds deriving from their investments (including the Notes) from 1 July 2014 to 31 December 2014, as certified by the relevant withholding agent, and a notional 20 per cent. taxation, provided that such credit is disclosed by such entities in the annual corporation tax return.

Where an Italian resident Noteholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian corporate taxation (IRES) (and, in certain circumstances, depending on the "status" of the Noteholder, also to the regional tax on productive activities ("**IRAP**")).

Under the current regime provided by Law Decree No. 351 of 25 September 2001, converted into law with amendments by Law No. 410 of 23 November 2001 ("**Decree 351**"), as clarified by the Italian Ministry of Economy and Finance through Circular No. 47/E of 8 August 2003, and No. 11/E of 28

March 2011, payments of interest in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 are subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund.

If the investor is an open-ended or closed-ended investment fund or a SICAV (an Italian investment company with variable capital) established in Italy and either (i) the fund or SICAV or (ii) their manager is subject to the supervision of a regulatory authority (the "**Fund**") and the relevant Notes are held by an authorised intermediary, interest, premium and other income accrued during the holding period on the Notes will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund. The Fund will not be subject to taxation on such result, but a withholding tax of 26 per cent. will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders (the "**Collective Investment Fund Tax**"). For an interim period, in certain circumstances, the Collective Investment Fund Tax may remain applicable at a rate of 20 per cent. for income accrued as of 30 June 2014.

Where an Italian resident Noteholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 11 per cent. substitute tax (which is increased to 11.5 per cent for 2014, pursuant to Law 89).

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a decree of the Ministry of Economy and Finance (each an "**Intermediary**").

An Intermediary must (i) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (ii) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Noteholder.

Non-Italian resident Noteholders

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident holder of Notes of interest or premium relating to the Notes provided that, if the Notes are deposited with an Intermediary in Italy, the non-Italian resident holder of Notes declares itself to be a non-Italian resident according to Italian tax regulations.

Capital Gains Tax

Any gain obtained from the sale or redemption of the Notes would be treated as part of the taxable income (and, in certain circumstances, depending on the "status" of the Noteholder, also as part of the net value of production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Where an Italian resident Noteholder is an individual not holding the Notes in connection with an entrepreneurial activity and certain other persons, any capital gain realised by such holder of Notes from the sale or redemption of the Notes would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent. (20 per cent. on capital gains realised up to 30 June 2014). Noteholders may set off losses with gains.

Pursuant to Law 89, non-commercial pension entities incorporated under Law No. 509 of 30 June 1994 or Law No. 103 of 10 February 1996 are entitled to a tax credit equal to the positive difference between withholding taxes and substitutive taxes levied at a rate of 26 per cent. on financial proceeds deriving from their investments (including the Notes) from 1 July 2014 to 31 December 2014, as

certified by the relevant withholding agent, and a notional 20 per cent. taxation, provided that such credit is disclosed by such entities in the annual corporation tax return.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the "tax declaration" regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individuals holding Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. Italian resident individuals holding Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years. Pursuant to Decree 66, capital losses may be carried forward to be offset against capital gains of the same nature realised after 30 June 2014 for an overall amount of: (i) 48.08 per cent. of the relevant capital losses realised before 1 January 2012; and (ii) 76.92 per cent. of the capital losses realised from 1 January 2012 to 30 June 2014.

As an alternative to the tax declaration regime, Italian resident individuals holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes (the "*risparmio amministrato*" regime). Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries; and (ii) an express election for the *risparmio amministrato* regime being punctually made in writing by the relevant holder of Notes. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the holder of Notes or using funds provided by the holder of Notes for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same Notes management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the holder of Notes is not required to declare the capital gains in its annual tax return. Pursuant to Decree 66, capital losses may be carried forward to be offset against capital gains of the same nature realised after 30 June 2014 for an overall amount of: (i) 48.08 per cent. of the relevant capital losses realised before 1 January 2012; and (ii) 76.92 per cent. of the capital losses realised from 1 January 2012 to 30 June 2014.

Any capital gains realised by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. (20 per cent. up to 30 June 2014) substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against any increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the holder of Notes is not required to declare the capital gains realised in its annual tax return. Pursuant to Decree 66, decreases in value of the management assets may be carried forward to be offset against any subsequent increase in value accrued as of 1 July 2014 for an overall amount of: (i) 48.08 per cent. of the relevant decreases in value registered before 1 January 2012; and (ii) 76.92 per cent. of the decreases in value registered from 1 January 2012 to 30 June 2014.

Any capital gains realised by a Noteholder which is a Fund will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio. Such result will not be taxed with the Fund, but subsequent distributions in favour of unitholders or shareholders may be subject to the Collective Investment Fund Tax.

Any capital gains realised by a Noteholder which is an Italian pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in

the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 11 per cent. substitute tax (which is increased to 11.5 per cent. for 2014 pursuant to Law 89).

Under the current regime provided by Decree 351, as clarified by the Italian Ministry of Economy and Finance through Circular No. 47/E of 8 August 2003 and No. 11/E of 28 March 2011, payments of interest in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 are subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund.

Capital gains realised by non-Italian resident holder of Notes from the sale or redemption of the Notes are not subject to Italian taxation, provided that the Notes (i) are transferred on regulated markets, or (ii) if not transferred on regulated markets, are held outside Italy.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, the transfers of any valuable asset (including shares, bonds or other Notes) as a result of death or donation by or for benefit of an Italian tax resident are taxed as follows:

(i) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of four per cent. on the value of the inheritance or the gift exceeding, for each beneficiary, € 1,000,000;

(ii) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree, are subject to an inheritance and gift tax applied at a rate of six per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the six per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding, for each beneficiary, € 100,000; and

(iii) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of eight per cent. on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate mentioned above in (i), (ii) and (iii) on the value exceeding, for each beneficiary, € 1,500,000.

Transfer Tax

Following the repeal of the Italian transfer tax, contracts relating to the transfer of Notes are subject to the registration tax as follows: (i) public deeds and notarised deeds executed in Italy are subject to fixed registration tax at rate of € 200; (ii) private deeds are subject to registration tax only in the case of use or voluntary registration.

Stamp duty

Pursuant to Article 19(1) of Decree No. 201 of December 6, 2011 ("**Decree 201**"), a proportional stamp duty applies on an annual basis to any periodic reporting communications sent by financial intermediaries to their clients for the Notes deposited in Italy. The stamp duty applies at a rate of 0.2 per cent. and cannot exceed € 14,000 for taxpayers other than individuals; this stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the Notes held.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 9 February 2011) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

Wealth Tax on Notes deposited abroad

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding Notes outside the Italian territory are required to pay an additional tax at a rate of 0.2 per cent.

This tax is calculated on the market value of the Notes at the end of the relevant year or, if no market value figure is available, the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

EU Savings Directive

Under Council Directive 2003/48/EC on the taxation of savings income (the "**Directive**"), Member States are required to provide to the tax authorities of other Member States details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in another Member State or certain limited types of entities established in another Member State.

On 24 March 2014, the Council of the European Union adopted a Council Directive amending and broadening the scope of the requirements described above. Member States are required to apply these new requirements from 1 January 2017. The changes will expand the range of payments covered by the Directive, in particular to include additional types of income payable on securities. The Directive will also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

For a transitional period, Luxembourg and Austria are required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments. The changes referred to above will broaden the types of payments subject to withholding in those Member States which still operate a withholding system when they are implemented. In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Directive.

The end of the transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

Implementation in Italy of the Directive

Italy has implemented the Directive through Legislative Decree No. 84 of 18 April 2005 ("**Decree 84**"). Under Decree 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, Italian qualified paying agents shall report to the Italian tax authorities details of the relevant payments and personal information on the individual beneficial owner and shall not apply the withholding tax. Such information is transmitted by the Italian tax authorities to the competent foreign tax authorities of the State of residence of the beneficial owner.

*The proposed European financial transactions tax ("**FTT**")*

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**").

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation. Additional EU Member States may decide to participate. Prospective holders of the Notes are strongly advised to seek their own professional advice in relation to the FTT.

Selling Restrictions

In an amended and restated dealer agreement dated 16 October 2014 (the "**Dealer Agreement**") the Dealers have agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase Notes or Pfandbriefe. Any such agreement will extend to those matters stated under "Terms and Conditions of the Notes" above. In the Dealer Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment of the Programme and the issuance of Notes under the Programme.

General

Each Dealer has represented and agreed that it will comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Prospectus or any other offering material and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and that neither the Issuer nor any other Dealer shall have any responsibility therefor.

Neither the Issuer nor any of the Dealers has represented that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or has assumed any responsibility for facilitating such sale.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), each Dealer has represented and agreed in relation to Notes which have a maturity of one year or more, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State, except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

(a) if the Final Terms in relation to the Notes specify an offer of those Notes other than pursuant to Article 3 (2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;

(b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;

(c) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or

(d) at any time in any other circumstances falling within Article 3 (2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of

sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression "**Prospectus Directive**" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression "**2010 PD Amending Directive**" means Directive 2010/73/EU.

*United Kingdom of Great Britain and Northern Ireland ("**United Kingdom**")*

Each Dealer has represented and agreed that:

(a) in relation to any Notes which must be redeemed before the first anniversary of the date of their issue, (a) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (b) it has not offered or sold and will not offer or sell any Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes whould otherwise constitute a contravention of Section 19 of the FSMA by the relevant Issuer;

(b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA does not apply to the Issuer; and

(c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to such Notes in, from or otherwise involving the United Kingdom.

United States of America

Each Dealer understands that the Notes have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S under the Securities Act or pursuant to an exemption from the registration requirements of the Securities Act. Terms used in this paragraph have the same meaning ascribed to them by Regulation S under the Securities Act.

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to agree that it has not offered and sold Notes and will not offer and sell Notes (a) as part of their distribution at any time or (b) otherwise until 40 days after the later of the date the Notes were first offered to persons other than distributors and the completion of the distribution of all Notes of the Tranche of which such Notes are a part, as determined and certified to the Fiscal Agent and the Issuer by the relevant Dealer (or, in the case of a sale of a Tranche to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Fiscal Agent shall notify each such Dealer when all such Dealers have so certified), within the United States or to, or for the account or benefit of, U.S. persons, except in accordance with Rule 903 of Regulation S under the Securities Act and the U.S. tax law requirements. Accordingly, none of the Dealers, their affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note, and the Dealers, their affiliates and any person acting on their behalf have complied and will comply with the offering restrictions requirements of Regulation S. Each Dealer has agreed that, at or prior to confirmation of sale of Notes, it will have sent to each distributor, dealer or other person receiving a selling concession, fee or other remuneration that purchases Notes from it or through it prior to the expiration of the Distribution Compliance Period a confirmation or notice to substantially the following effect:

"The Notes offered and/or sold hereby have not been registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (a) as part of their distribution at any time or (b) otherwise until 40 days after the later of the commencement of the offering and the closing date, except in either case in accordance with Regulation S under the Securities Act or pursuant to another available exemption from the registration requirements of the Securities Act. Terms used above have the meaning given to them by Regulation S."

Terms used in the above paragraph have the meanings given to them by Regulation S.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, an offer or sale of such Notes in the United States by a dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than pursuant to the registration of such Notes under the Securities Act or in accordance with an available exemption from the registration requirements of the Securities Act.

Each issuance of Notes will be subject to such additional U.S. selling restrictions as indicated in the applicable Final Terms. Each Dealer has agreed and each further Dealer appointed under the Programme will be required to agree that it will offer, sell or deliver such Notes only in compliance with such additional selling restrictions.

Each Dealer who has purchased Notes of any Tranche in accordance with the Dealer Agreement (or, in the case of a sale of a Tranche of Notes issued to or through more than one Dealer, each of such Dealers as to Notes of such Tranche purchased by or through it) will determine and certify to the Fiscal Agent and the Issuer the completion of the distribution of the Notes of such Tranche as aforesaid. On the basis of such certification or certifications, the Fiscal Agent has agreed to notify such Dealer or Dealers of the end of the Distribution Compliance Period with respect to such Tranche.

Notes will be issued in accordance with the provisions of United States Treasury Regulation § 1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**"), unless the relevant Final Terms specifies that Notes will be issued in accordance with the provisions of United States Treasury Regulation § 1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") (or any successor rules in substantially the same form as the TEFRA C Rules or TEFRA D Rules, as applicable, for purposes of Section 4701 of the U.S. Internal Revenue Code).

In respect of Notes issued in accordance with the TEFRA D Rules each Dealer has represented and agreed that:

(a) except to the extent permitted under the TEFRA D Rules, (i) it has not offered or sold, and during the Distribution Compliance Period will not offer or sell, Notes to a person who is within the United States or its possessions or to a United States person, and (ii) such Dealer has not delivered and will not deliver within the United States or its possessions Notes that are sold during the restricted period;

(b) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the TEFRA D Rules;

(c) if such Dealer is a United States person, it represents that it is acquiring the Notes for purposes of resale in connection with their original issuance and, if such Dealer retains Notes for its own account, it will only do so in accordance with the requirements of the TEFRA D Rules; and

(d) with respect to each affiliate that acquires from such Dealer Notes for the purposes of offering or selling such Notes during the restricted period, such Dealer either (i) represents and agrees on behalf of such affiliate to the effect set forth in sub-paragraph (a), (b) and (c) of this paragraph or (ii) agrees that it will obtain from such affiliate for the benefit of the Issuer the representations and agreements contained in sub-paragraphs (a), (b) and (c) of this paragraph.

Terms used in the above paragraph have the meanings given to them by the United States Internal Revenue Code of 1986, as amended, and Regulations thereunder, including the TEFRA D Rules.

Where the TEFRA C Rules are specified in the relevant Final Terms as being applicable in relation to any Tranche of Notes, Notes must be issued and delivered outside the United States and its possessions in connection with their original issuance. Each Dealer has represented and agreed that it has not offered, sold or delivered, and will not offer, sell or deliver, directly or indirectly, Notes within the United States or its possessions in connection with the original issuance. Further, each Dealer has represented and agreed in connection with the original issuance of Notes, that it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if such purchaser is within the United States or its possessions and will not otherwise involve its U.S. office in the offer or sale of Notes. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, and regulations thereunder, including the TEFRA C Rules.

Each Dealer has represented and agreed that it has not entered and will not enter into any contractual arrangements with respect to the distribution or delivery of Notes into the United States, except with its affiliates or with the prior written consent of the Issuer.

Japan

Each Dealer has acknowledged that the Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) (the "**FIEL**"). Each Dealer has represented and agreed that it has not directly or indirectly and will not directly or indirectly offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organised under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEL and any applicable laws, regulations and guidelines of Japan.

Republic of Italy

The offering of the Notes has not been registered pursuant to Italian securities legislation and, accordingly, no Notes may be offered, sold or delivered, nor may copies of the Prospectus or of any other document relating to the Notes be distributed in the Republic of Italy, except:

(i) to qualified investors (*investitori qualificati*), as defined pursuant to Article 100 of Legislative Decree No. 58 of 24 February 1998, as amended (the "**Financial Services Act**") and Article 34-*ter,* first paragraph, letter b) of CONSOB Regulation No. 11971 of 14 May 1999, as amended from time to time ("**Regulation No. 11971**"); or

(ii) in other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Financial Services Act and Article 34-*ter* of Regulation No. 11971.

Any offer, sale or delivery of the Notes or distribution of copies of the Prospectus or any other document relating to the Notes in the Republic of Italy under (i) or (ii) above must be:

(a) made by an investment firm, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with the Financial Services Act, CONSOB Regulation No. 16190 of 29 October 2007 (as amended from time to time) and Legislative Decree No. 385 of 1 September 1993, as amended (the "**Banking Act**"); and

(b) in compliance with Article 129 of the Banking Act, as amended, and the implementing guidelines of the Bank of Italy, as amended from time to time, pursuant to which the Bank of Italy may request information on the securities in the Republic of Italy; and

(c) in compliance with any other applicable laws and regulations or requirement imposed by CONSOB or other Italian authority.

Please note that in accordance with Article 100-bis of the Financial Services Act, where no exemption from the rules on public offerings applies under (i) and (ii) above, the subsequent distribution of the Notes on the secondary market in Italy must be made in compliance with the public offer and the prospectus requirement rules provided under the Financial Services Act and Regulation No. 11971. Failure to comply with such rules may result in the sale of such Notes being declared null and void and

in the liability of the intermediary transferring the financial instruments for any damages suffered by the investors.

Pfandbriefe

The following is a description reduced to some of the more fundamental principles governing the law regarding Pfandbriefe and Pfandbrief Banks in summary form and without addressing all the laws' complexities and details. Accordingly, it is qualified in its entirety by reference to the applicable laws.

Introduction

Since 19 July 2005, the Pfandbrief operations of the Bank are subject to the Pfandbrief Act of 27 May 2005 (*Pfandbriefgesetz*) which came into force on 19 July 2005. As from such date, the legislation accompanying the new Pfandbrief Act, *i.e.*, the Act on the Reorganization of the Law on Pfandbriefe (*Gesetz zur Neuordnung des Pfandbriefrechts*), has rescinded all existing special legislation regarding the Pfandbrief business in the Federal Republic of Germany, including, *inter alia*, (i) the *Mortgage Bank Act* applicable to the existing mortgage banks being specialist institutions authorized to issue Mortgage Pfandbriefe (*Hypothekenpfandbriefe*) covered by mortgage loans as well as Public Pfandbriefe (*Öffentliche Pfandbriefe*) covered by obligations of public sector debtors (and, in either case, by certain other qualifying assets), (ii) the Act on Pfandbriefe and Related Bonds of Public-Law Credit Institutions (*Gesetz über die Pfandbriefe und verwandten Schuldverschreibungen öffentlich-rechtlicher Kreditanstalten*) in the version as published on 9 September 1998, as amended, applicable to various types of public sector banks, including in particular the *Landesbanken*, in respect of Mortgage Pfandbriefe and Public Pfandbriefe issued by them, and (iii) finally, the Ship Banking Act (*Schiffsbankgesetz*), as last amended on 5 April 2004, governing the operations of ship mortgage banks issuing Ship Mortgage Pfandbriefe (*Schiffspfandbriefe*).

The Pfandbrief Act abolishes the concept of specialist Pfandbrief institutions hitherto prevailing in respect of the existing mortgage banks and ship mortgage banks. It establishes a new and uniform regulatory regime for all German credit institutions intending to issue Pfandbriefe. Since 19 July 2005, all German credit institutions are permitted, subject to authorization and further requirements of the Pfandbrief Act, to engage in the Pfandbrief business and to issue Mortgage Pfandbriefe, Public Pfandbriefe as well as Ship Mortgage Pfandbriefe, and, from such date onwards, existing mortgage banks and ship mortgage banks are authorized to engage in most other types of banking transactions, eliminating the limitations in respect of the scope of their permitted business which existed in the past. The Pfandbrief Act thus creates a level playing field for all German credit institutions, including the *Landesbanken*, operating as universal banks and engaged in the issuance of Pfandbriefe.

German credit institutions wishing to take up the Pfandbrief business must obtain special authorization under the Bank Act (*Kreditwesengesetz*) from the Federal Financial Services Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht* – "**BaFin**") and, for that purpose, must meet some additional requirements as specified in the Pfandbrief Act.

Mortgage banks, such as the Issuer and ship mortgage banks, operating as such up to 19 July 2005 as well as public sector banks (including the *Landesbanken*) carrying on the Pfandbrief business up to such date, are all grandfathered in respect of authorization for the particular type of Pfandbrief business in which they were engaged at such time, subject to giving a comprehensive notice to the BaFin by 18 October 2005 failing which the BaFin might have withdrawn the authorisation. Mortgage banks and ship mortgage banks are since 19 July 2005 also authorized to engage in a broad spectrum of other banking transactions, including, *inter alia*, deposit taking, the extension of credits, the guarantee business, underwriting as well as others, up to then not permitted to be carried out by them, contrary to the *Landesbanken*, to which all types of banking transactions have always been open (subject to authorization).

The operations of all banks engaged in the issuance of Pfandbriefe are since 19 July 2005 regulated by the Pfandbrief Act and the Bank Act, and are subject to the prudential supervision of the BaFin. In particular, the BaFin will carry out audits of the assets forming part of any Cover Pool, regularly in biannual intervals.

In 2009, the Pfandbrief Act was amended. Among other changes, the new Pfandbrief category of Airplane Mortgage Pfandbriefe was introduced, rules requiring a certain liquidity cushion of the Cover Pool were established, and the list of assets qualifying as Cover Pool for Public Pfandbriefe was extended to include payment claims against certain qualifying public bodies in Switzerland, the United States of America, Canada or Japan.

The Pfandbrief Act was further amended in 2010 (in particular with respect to clarifications regarding

the quality of Pfandbriefe in the case of insolvency of the Pfandbrief Bank as described below under "-*Insolvency Proceedings*") and in 2013.

In this summary, banks authorized to issue Pfandbriefe will generally be referred to as "Pfandbrief Banks" which is the term applied by the Pfandbrief Act.

Rules applicable to all Types of Pfandbriefe

Pfandbriefe are standardized debt instruments issued by a Pfandbrief Bank. The quality and standards of Pfandbriefe are strictly governed by provisions of the Pfandbrief Act and subject to the prudential supervision of the BaFin. Pfandbriefe generally are medium- to long-term bonds, typically with an original maturity of two to ten years, which are secured or "covered" at all times by a pool of specified qualifying assets (*Deckung*), as described below. Pfandbriefe are recourse obligations of the issuing bank, and no separate vehicle is created for their issuance generally or for the issuance of any specific series of Pfandbriefe. Pfandbriefe may not be redeemed at the option of the Holders prior to maturity.

Pfandbriefe may either be Mortgage Pfandbriefe, Public Pfandbriefe, Ship Mortgage Pfandbriefe or Airplane Mortgage Pfandbriefe. The outstanding Pfandbriefe of any one of these types must be covered by a separate pool of specified qualifying assets: a pool for Mortgage Pfandbriefe only, a pool for Public Pfandbriefe only, a pool covering all outstanding Ship Mortgage Pfandbriefe only and a pool covering all outstanding Airplane Mortgage Pfandbriefe only (each a "**Cover Pool**"). An independent trustee appointed by the BaFin has wide responsibilities in monitoring the compliance by the Pfandbrief Bank with the provisions of the Pfandbrief Act. In particular, the trustee monitors the sufficiency of the cover assets and maintains a register listing the assets provided as cover from time to time in respect of the Pfandbriefe of any given type.

The aggregate principal amount of assets in these Cover Pools must at all times at least be equal to the aggregate principal amount of the outstanding Pfandbriefe issued against such Cover Pooland the aggregate interest yield on any such Cover Pool must at all times be at least equal to the aggregate interest payable on all Pfandbriefe relating to the Cover Pool. In addition, the coverage of all outstanding Pfandbriefe with respect to principal and interest must at all times be ensured on the basis of the present value (*Barwert*). Finally, the present value of the assets contained in the Cover Pool must exceed the total amount of liabilities from the corresponding Pfandbriefe and derivatives by at least 2% (*sichernde Überdeckung*).

Such 2% excess cover must consist of highly liquid assets. Qualifying assets for the excess cover are, *inter alia*, (i) debt securities of the Federal Republic of Germany, a special fund of the Federal Republic of Germany, a German state, the European Communities, another member state of the European Union, another contracting state on the agreement on the European Economic Area, the European Investment Bank, the IBRD-World Bank, the Council of Europe Development Bank or the European Bank for Reconstruction and Development, (ii) debt securities of Switzerland, the United States of America, Canada or Japan, if such countries' risk weighting has been provided with the credit quality step 1 according to table 1 of Article 114 (2) of Commission Regulation No. 575/2013/EC; (iii) debt securities guaranteed by any of the foregoing institutions; and (iv) credit balances maintained with the European Central Bank, the central banks of the member states of the European Union or suitable credit institutions of a country listed under (i) and (ii) above, if a risk weighting of credit quality step 1 according to table 3 of Article 120 (1) or table 5 of Article 121 (1) of Commission Regulation No. 575/2013/EC has been assigned to such countries in accordance with Article 119 (1) and Article 496 (2) of Commission Regulation No. 575/2013/EC. In addition, to safeguard liquidity, a certain liquidity cushion must be established.

The Pfandbrief Bank must record in the register of cover assets for any Cover Pool of a given Pfandbrief type each asset and the liabilities arising from derivatives. Derivatives may be entered in such register only with the consent of the trustee and, to the extent they create liabilities of the Pfandbrief Bank, also the counterparty.

The Pfandbrief Bank must have in place an appropriate risk management system meeting the requirements specified in detail in the Pfandbrief Act and must comply with comprehensive disclosure requirements on a quarterly and annual basis set out in detail in the Pfandbrief Act.

Cover Pool for Mortgage Pfandbriefe

The principal assets qualifying for the Cover Pool for Mortgage Pfandbriefe are loans secured by mortgages which may serve as cover up to the initial 60% of the value of the property, as assessed by experts of the Pfandbrief Bank not taking part in the credit decision in accordance with comprehensive evaluation rules designed to arrive at the fair market value of the property. Moreover, the mortgaged property must be adequately insured against relevant risks.

The property that may be encumbered by the mortgages must be situated in a state of the European Economic Area, Switzerland, the United States of America, Canada or Japan.

In addition, the Cover Pool for Mortgage Pfandbriefe may comprise a limited portion of other assets as follows: (i) equalization claims converted into bonds; (ii) subject to certain qualifications, those assets which may also be included in the 2% excess cover described above, up to a total sum of 10% of the aggregate principal amount of outstanding Mortgage Pfandbriefe; (iii) the assets which may also be included in the Cover Pool for Public Pfandbriefe referred to below, up to a total of 20% of the aggregate principal amount of outstanding Mortgage Pfandbriefe, whereby the assets pursuant to (ii) above will be deducted, and, finally, (iv) claims arising under interest rate and currency swaps as well as under other qualifying derivatives contracted under standardized master agreements with certain qualifying counterparties, provided that it is assured that the claims arising under such derivatives will not be prejudiced in the event of the insolvency of the Pfandbrief Bank or any other Cover Pool maintained by it. The amount of the claims of the Pfandbrief Bank arising under derivatives which are included in the Cover Pool measured against the total amount of all assets forming part of the Cover Pool as well as the amount of the liabilities of the Pfandbrief Bank arising from such derivatives measured against the aggregate principal amount of the outstanding Mortgage Pfandbriefe plus the liabilities arising from derivatives may in either case not exceed 12%, calculated in each case on the basis of the net present values.

Cover Pool for Public Pfandbriefe

The Cover Pool for Public Pfandbriefe may comprise payment claims under loans, bonds or similar transactions of a wide spectrum of states and other public bodies, including, but not limited to: (i) the Federal Republic of Germany as well as any German state, municipality or other qualifying public bodies in Germany; (ii) another member state of the European Union or another contracting state of the agreement on the European Economic Area, certain qualifying public bodies of such states, and the respective central banks of such states; (iii) regional governments and local territorial authorities of the countries listed under (ii) above; (iv) Switzerland, the United States of America, Canada or Japan and the respective central banks of such countries, if such countries' risk weighting has been provided with the credit quality step 1 according to table 1 of Article 114 (2) of Commission Regulation No. 575/2013/EC; (v) regional governments and local territorial authorities of the countries listed under (iv) above if they were classified by the respective national authority equal to the central state or if such countries' risk weighting has been provided with the credit quality step 1 according to table 5 of Article 121 (1) of Commission Regulation No. 575/2013/EC; (vi) certain qualifying public bodies of the countries listed under (iv); (vii) the European Central Bank, multilateral development banks such as the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Investment Bank, or the European Bank for Reconstruction and Development and international organisations; and (viii) any entity the obligations of which are guaranteed by an institution referred to or mentioned in (i) through (v) and (vii) above.The Cover Pool may furthermore include the following assets: (i) equalization claims converted into bonds; (ii) credit balances maintained with a suitable credit institution, up to a total sum of the aggregate principal amount of outstanding Public Pfandbriefe; and (iii) claims arising under derivatives as mentioned above, subject to the conditions and restrictions described in such paragraph. The limitations which apply to Mortgage Pfandbriefe apply here as well.

Cover Pool for Ship Mortgage Pfandbriefe

The principal assets of the Cover Pool for Ship Mortgage Pfandbriefe are loans secured by ship mortgages. Any such mortgage may serve as cover up to an amount not exceeding 60% of the fair market value of the ship. Furthermore, the ship must be adequately insured against relevant risks.

In addition, the Cover Pool for Ship Mortgage Pfandbriefe may include other assets of the kind which qualify for a Cover Pool of Mortgage Pfandbriefe (see above).

Insolvency Proceedings

In the event of the institution of insolvency proceedings over the assets of the Pfandbrief Bank, any assets of a Cover Pool maintained by it and registered in the respective cover pool register would not be part of the insolvency estate, and, therefore, such insolvency would not automatically result an insolvency of any Cover Pool. Only if at the same time or thereafter the relevant Cover Pool were to become insolvent, separate insolvency proceedings would be initiated against such Cover Pool by the BaFin. In this case, Holders of Pfandbriefe would have the first claim on the respective Cover Pool. Their preferential right would also extend to interest on the Pfandbriefe accrued after the commencement of insolvency proceedings. Furthermore, but only to the extent that Holders of Pfandbriefe suffer a loss, Holders would also have recourse to any assets of the Pfandbrief Bank not included in the Cover Pools. As regards those assets, Holders of the Pfandbriefe would rank equal with other unsecured and unsubordinated creditors of the Pfandbrief Bank.

Up to three administrators (*Sachwalter* - "**Administrator**") will be appointed in the case of the insolvency of the Pfandbrief Bank to administer each Cover Pool for the sole benefit of the Holders of Pfandbriefe. The Administrator will be appointed by the court having jurisdiction at the location of the head office of the Pfandbrief Bank at the request of the BaFin before or after the institution of insolvency proceedings. The Administrator will be subject to the supervision of the court and also of the BaFin with respect to the duties of the Pfandbrief Bank arising in connection with the administration of the assets included in the relevant Cover Pool. The Administrator will be entitled to dispose of the Cover Pool's assets and receive all payments on the relevant assets to ensure full satisfaction of the claims of the Holders of Pfandbriefe. To the extent, however, that those assets are obviously not necessary to satisfy such claims, the insolvency receiver of the Pfandbrief Bank is entitled to demand the transfer of such assets to the insolvency estate.

Subject to the consent of the BaFin, the Administrator may transfer all or part of the cover assets and the liabilities arising from the Pfandbriefe issued against such assets to another Pfandbrief Bank.
